

Title: Library Makers Volunteer

Description: This position will work within the Makerspace to assist staff with leading group projects, organizing materials, and managing participants. The majority of the work in this position involves communicating with staff and patrons, assisting with Makerspace equipment, and cleaning and maintaining the facility.

This volunteer must demonstrate conflict resolution skills, good customer service, proper communication, a willingness to learn new technology, and a passion for making.

This person must adhere to the Makerspace policies/procedures and exhibit positive and inclusive behavior with staff and participants

Job duties:

- Set up tables and project materials
- Teach tutorials and help with crafts
- Communicate in a friendly and inclusive manner with staff and participants
- Help clean up and re-organize materials
- Settle any conflict between patrons

Requirements:

- The ability and desire to lead activities
- Passions for technology, recreation, and making
- Group and individual communication skills
- Willingness to learn new equipment and technology

Notes: These volunteers work in a noisy and sociable environment. They should use proper language and behavior for working among youth or adults.

List of Technology:

• Prusa 3D Printers • Epilog Laser Cutter • Brother Innovis Embroidery Machine and Inkscape Software • Cricut Cutter • Bookbinding Press • Singer Sewing Machines

The maker program provides a nonjudgmental atmosphere for these participants to play, create, and socialize. We encourage all of our participants to use inclusive communication and creative ingenuity to create a better library experience.
