

Make a Library Critter Instructions

Step 1: Oh what fun! Use your imagination to make a body for your critter. Will it run, jump, or skitter?

Step 2: Grab some glue and give your critter a head with eyes, feelers, and a nose so it can sneeze. ACHOOO!!!

Step 3: It's almost time to set your critter free! Use the rest of the parts to give your critter a hairdo, a wing, or even a heart so it can sing!

Step 4: Now it's time for an encore! Make a friend for your critter. Reuse the bag from this kit or some recycling that's floating around to make it slither, fly or leap and bound.

Share your creation with us!

If you would like to share a story or a picture of your critter with us please send it to our email, tcpllibrary@gmail.com, or through our pen pal program (see included flyer for more details).

Happy Crafting!

Materials List
