ITHACA JOURNAL OBITUARY INDEX

1900 - 1914

Compiled by

JULIAN C. SMITH

Ithaca, New York

Copyright 1995 by Julian C. Smith

## NOTES ON THE INDEX

This index is an alphabetized list of obituaries and death notices which appeared in the *Ithaca Journal* during the years 1900 through 1914. The name of the deceased person is followed by the age at death, when available; the date; and in many cases an explanatory note. The dates given are usually the dates of death. The death notice was sometimes published on the same day, but more commonly appeared one to seven (or more) days later. When the note indicates "funeral" or "interment," however, the date given is that of the entry in the *Journal*. Some notes contain items in square brackets which give the date and location of the *Journal* entry.

The last name of the deceased is followed by the given names and often by a title such as Mrs., Miss, Prof., Dr., Rev., etc. For a few entries, only the last name is available. The original death notices for outlying towns and villages, such as Dryden, Newfield, Trumansburg, and so forth, are sometimes difficult to find, for they appear only in the weekly or semiweekly reports of events in the town or village. For outlying areas the death notice was often included in a list of personal notices, without any heading or other easy identification.

The present names of some of the neighborhoods and nearby towns are different from what they were in 1900-1914. Brooktondale was known as Brookton at that time; West Hill was often called the "Fringe." Forest Home was known as Farmer. Many street names were changed after about 1907. Heustis Street, for example, is now College Avenue.

Between 1900 and 1914, in early January of each year the *Journal* published a chronological list of events, including deaths, that occurred in the Ithaca area during the preceding year. This Index was compiled mainly from these chronological lists. Each year the *Journal* also published a pamphlet, the "Carriers' New Year's Greeting," which included a separate summary of events. These pamphlets for the years 1903 through 1912 were reviewed by the compiler and any additional names added to the index. To resolve discrepancies, misspellings, and other errors, checks were made of the pertinent original entries. This checking often generated still more names of decedents, names which did not appear in any of the chronological summaries.

After 1912 the "Carriers' Greetings" pamphlets were apparently discontinued. Beginning in 1914 the annual chronological summaries included a separate list of deaths during the year. (They also included a list of weddings - but these are not reported here.)

This Index contains 4,864 names: 2,583 men and boys, 2,255 women and girls, and 26 children whose gender was not indicated. The age at death is given for 907 of the decedents. There were two centenarians: Daniel Butler of Enfield Falls, who died at 104, and Mrs. Urania Yaple Smith at 101. There were 73 suicides, 57 drownings, and 46 persons killed by a railroad train. Six persons were listed as killed by runaway horses, and four in automobile accidents.

The "Carriers' New Years Greetings" were provided by the Dewitt Historical Society of Ithaca; the chronological summaries were obtained from microfilms in the section of Microforms and Newspapers, Olin Library, Cornell University.

While efforts have been made to make this index as accurate as possible, the author cannot guarantee it is error-free. He assumes no responsibility for inaccuracies in the summary lists. In addition, the Index does not include all the deaths that occurred during the period, for it is clear that some additional names, not given in the summaries, are listed in the daily issues of the *Ithaca Journal*.

Thanks are due to Henry Cowan of the DeWitt Historical Society and Mrs. Ethel Vrana of the Olin Library, Cornell University, for their assistance in compiling this Index.
