INGRAHAM'S

**Curved Tooth, Double Pointed, Adjustable
Thill & Wheel Cultivators, or Horse Hoes.**

Young Challenger.

American Champion.

All the advantages of the most costly and complicated Cultivators are here combined in a simple yet durable and cheap machine. It can be arranged to any kind of work, that has ever been done by any Cultivator that has preceded it, and many kinds of work that none of these can be made to do.

It is suited to the cultivation of Nurseries, Vineyards, Hops, Corn, Potatoes, Root-abagoes, or any crop sown or planted in rows or hills. Though recently invented, it has taken the premium over all others at 19 different Fairs, (one State Fair). Great inducements are offered to those wishing to purchase or lease territory.

For information in regard to the sale of territory or machines, address **H. INGRAHAM, Naples, N. Y.,** or **S. COLEMAN & CO., New Novelty Works, Rochester, N. Y.** See Publisher's Notice, page 242.

HAYDEN BROS., RETAIL WOOLEN MILLS, PORT BYRON, N. Y. ESTABLISHED IN 1824.

Is the most successful establishment of the kind in the State. Every yard is warranted to be wrought from **Pure Wool**. No waste, shoddy or shearings were ever used in the manufacture of our goods.

Parties wanting **Cassimeres, Tweeds, Grays, Ladies' Cloths, Flannels, &c.**, of a superior quality, should order directly from the Mill.

Samples sent when required.

SYRACUSE STORE, 29 WARREN STREET.

W. H. PINCH, PRACTICAL

**House, Sign, Ornamental & Decorative
PAINTER & PAPER HANGER.**

Franklin St., Watkins, N. Y.

 All Jobs executed in the neatest Style of the Art.

TRUMANSBURG, N. Y.,

Dealers in all Kinds of

FLAGGING!

AND EVERY DESCRIPTION OF STONE

Kept in our Quarries delivered on the shortest notice. Delivered by Canal or Railroad from Cayuga Bridge. Quarry near Frog Point Landing, on Cayuga Lake.

PUBLISHER'S NOTICES.

Ingraham's Cultivators or Horse Hoes are perhaps the most wonderful and perfect machines of the kind, that have thus far been invented.— This machine can be arranged to run deep or shallow, wide or narrow, to make much hill or no hill, to throw the earth to or from the row. The teeth are of cast iron or steel, and reversible, giving double the amount of wear; can be adjusted to any desired angle, and yet the machine is so simple in its construction as to be manufactured by any ordinary mechanic, at an expense not to exceed twelve dollars. If you wish deep cultivation, this machine will do it. If shallow cultivation is required, you may arrange it accordingly. The simple turning of two nuts reverses the shares, or adjusts the machine to any desired width of row. You may have a wheel or thill cultivator, as desired. The drawing of a pin will change the angle of the tooth so as to give the hill any desired proportion.

Farmers, this is the cultivator you have long sought. It can be arranged for any and all these different kinds of work. It can be put through all of these changes in a few minutes, no tool being necessary except a common wrench. Every common sense farmer will see at a glance, that in this simple machine provision is made for all kinds of work required of a cultivator. The *Rural New Yorker* declares it to be the most perfect machine of its kind.— Please notice particularly the card and engraving on page 240. For machines and territory address H. Ingraham, Naples, N. Y.

Dr. Kingsley, of Rome, justly celebrated for the many cures he has effected of that most distressing disease, Cancer, publishes a notice on page 1. He is prepared to treat all scrofulous diseases, and others of long standing, and assures his patients that they will not be charged a heavy bill and dismissed without receiving any benefit. Persons who cannot conveniently call upon him in person, can address him by letter, and will receive prompt attention. Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call.

Benjamin Westlake, manufacturer of Brick of every description, Horse-heads, N. Y., publishes a card on colored leaf, opposite page 155. Mr. Westlake has one of the largest manufacturing establishments in the State. He has five Brick Machines, each capable of producing 50,000 bricks per day. His pit shed, kiln shed and drying yard, occupy about three acres. The main shaft which drives the machinery and connects with the engine is 320 feet long. Mr. W. is an active, energetic man, and will not suffer orders for brick to go unfilled. He has an inexhaustible bed of clay from which bricks of a superior quality are made. Bricks for cornices, and all kinds of ornamental work made to order. His location is such that he can send brick by railroad or canal to all points. Dealers and builders will be supplied in large or small quantities.

Dr. T. K. Hardman, Practical Chemist and Pharmaceutist, Syracuse, N. Y., publishes a card on colored leaf, opposite page 154. Dr. H. has spent years of time and a large amount of money in his investigations, and the result is the discovery of a process by which medicines in a liquid form can be prepared and preserved without the use of alcohol, that bane of the human race. Thousands of drunkards are made every year by the various nostrums under the name of bitters, the chief ingredient of which is alcohol. Dr. H's preparations are purely scientific and are destined to work a mighty change in the field of their adoption. These medicines are highly spoken of wherever they have been used. The manufacture of these medicines is carried on under the firm of Hardman & Co., corner of James and Warren streets, Syracuse, N. Y.

J. C. Lyon, dealer in Fruit and Ornamental Trees, Roses, Flowers, &c., Southport, N. Y., publishes a card on page 158. Mr. Lyon's garden and nurseries are supplied with a great variety of the most desirable trees and flowers, for ornament or use. Special attention given to setting evergreen hedges for walks, of which he has a great variety. Give him a call.

PUBLISHER'S NOTICES.

Gregg Iron Works, at Trumansburgh, Tompkins County, owned by Gregg, Plyer & Co., successors to James A. Clapp, of Farmer Village, who established the first manufactory of agricultural implements in the southern part of Seneca Co., about the year 1847. Gregg, Plyer & Co. removed to Trumansburgh in 1865. During that year they erected a substantial and commodious brick building in which to conduct their rapidly increasing business. It is a two story building, 101 feet long and 90 feet wide. Located in the western part of the village, it attracts the notice of all coming into town from that section. At these works are manufactured the celebrated Iron Mower, patented by Daniel H. Thayer, of Ludlowville, in Tompkins Co. They are celebrated for their strength, simplicity and durability. They also manufacture Sharp's Patent Wheel Horse Rake, besides Threshing Machines, Clover Machines, and other agricultural implements. In the various departments the Company work up about 500 tons of cast and wrought iron, and 200 tons of coal annually.

The works are admirably conducted.—Only experienced and competent workmen, (of whom, when in full operation, there are about 55,) are employed, and the farmer who purchases a machine of this firm may rely on the investment's being a good one. See card, page 257.

Hayden Brothers, proprietors of the Retail Woolen Mills, at Port Byron, have long been celebrated as being manufacturers of desirable and reliable goods. The establishment was started in 1824 as a small custom mill. Since then the greatly increased business has called for extensive additions and improvements, which have been made; and to day their cloth is known and worn in every county in the State and every State in the Union. They use only the best qualities of wool, entirely free from waste or shoddy, and employ only experienced and careful workmen who strive to maintain the reputation their goods have ever borne among their retail customers. A few months since they opened a store at No. 29 Warren street, Syracuse, where they keep full lines of all goods of their manufacture. Farmers and mechanics and the public of Chemung and Schuyler Counties, as well as the business men generally, can make good bargains by calling at the store, where Mr. J. W. Gates, the manager, will be pleased to give them good goods at advantageous terms. See card, page 240.

W. H. Pinch, House, Sign and Decorative Painter and Paper Hanger, Franklin street, Watkins, N. Y., publishes a card on page 240. Mr. Pinch is a practical painter, and those who patronize him may be assured of having their work well done. Those who have seen his work need no recommendation from us.

Mrs. C. C. Sheffield, Agent for the American Button Hole, Overseaming and Sewing Machine Company, Elmira, N. Y., publishes a card on colored page 255. The mechanism of this Machine far surpasses any other in use. It is so constructed that it will make either the lock stitch or the button hole stitch, really combining two machines in one. It is very simple in construction, and is not easily thrown out of repair. In short, it combines all the most desirable qualities of the best machines, besides adding to them some peculiar excellences of its own. Persons wishing to purchase machines will do well to call on Mrs. S. and examine this machine before purchasing. Instructions given gratuitously to all purchasers.

Important Knowledge.—As music is now an indispensable necessity in every household, any reliable information is valuable as to the best place to buy musical instruments. We have been acquainted for years personally with the firm of Redington & Howe, and have known of their business facilities. *We know* that no House between New York and Chicago can compete with them successfully, as their facilities are unequalled. In addition to the immense capital at their control, they have *special contracts* with several leading first-class manufacturers, whereby they buy cheaper than any other dealers in the United States *anywhere*. Their immense trade requires only a small profit on each one of their many transactions to ensure them a handsome income. Their terms are most highly liberal. And another important consideration is that their treatment of their customers is perfectly honorable, a very important matter in the purchase of such a complicated affair as a musical instrument. Their recommendation of instruments can be *depended on* implicitly.—This we know from an extensive acquaintance among hundreds to whom they have sold instruments. We advise our readers to give them a call, or certainly to write to them before deciding on the purchase of a Piano Forte, Organ or Melodeon, or any musical merchandise. See the Addenda to this volume, which contains a portion of their catalogue.

Howe's Never-Failing Ague Cure and Tonic Bitters, and Howe's Concentrated Syrup, are prepared under the personal supervision of Dr. C. B. Howe, the proprietor, at Seneca Falls, N. Y., for ague and fever, and all periodic diseases, rheumatism, paralysis, etc. The "Ague Cure" has produced wonderful cures. The "Syrup," for the blood, liver, skin, digestive and uterine organs, has cured many cases of scrofula, cancer, tumors, goiter, salt rheum, scaldhead, and many other diseases too numerous to mention in this place. See card, page 20.

 Yost, James, (Tyrone,) farmer 25.
 Yost, Joel H., (Tyrone,) farmer 80.
 Yost, John, (Tyrone,) farmer 80.
 Young, James, (Tyrone,) farmer 2.
 Youngs, Henry, (Tyrone,) farmer 46.
 Youngs, Henry, (Tyrone,) (*J. W. Jessup &*
Co.)

PUBLISHER'S NOTICES.

The Schuyler Marble Works, Watkins, N. Y., are worthy of the attention of the citizens of Schuyler and adjoining counties. The proprietors, Messrs. Cogswell & Frost, have a large and well selected stock of marbles, both domestic and foreign, and will satisfy all who favor them with a call, that they have the facilities, and are determined to do an extensive business. Their Monuments, Head Stones, Mantles, Table Tops, &c., are fine specimens, both of material and workmanship. We advise all who wish for designs in marble or granite, however extensive or complicated, to call at their works and satisfy themselves that they can be accommodated with as great a variety, as good material, and as perfect workmanship as can be obtained in many works of greater pretensions, and at as reasonable rates. If gentlemen and ladies would go and examine their rich and splendid Slate and Marble Mantles they would be found in many houses that are now without them. Messrs. Cogswell & Frost are enterprising men, and are determined that the "Schuyler Marble Works" shall be second to no establishment of the kind in this part of the country. They have fairly earned a reputation for promptness in business and fair dealing, which they mean to sustain. When anything is wanted in the line of Foreign or Domestic Marbles, Freestone, Scotch, Quincy, Concord and Fitzwilliam Silver Granite, or Slate Roofing, give Messrs. Cogswell & Frost a call, and you will not regret it. See card, inside first cover.

Elliott Meeker, dealer in Groceries, Provisions and Hardware, Millport, N. Y., keeps an excellent assortment of all goods in his line, which he will sell as low as can be bought in the county. He is prepared to welcome all his old customers, and as many new ones as see fit to call. Farmers will do well to call on Mr. Meeker with their produce, as he is prepared to pay the highest price for grain, potatoes, pork, &c. See card, colored page 205.

George Sawyer, dealer in Jewelry, Watches, Chains, Silverware, &c., Watkins, N. Y., has a large assortment of fine Watches and Jewelry, which his friends can have at low prices. Mr. Sawyer is agent for the American Watch Co., of Waltham, Mass., and has also a large assortment of foreign watches. To those whose eyes are dim, we would say, go to Sawyer's and get a pair of those Spectacles, which will enable you to see as well as when you were young. For particulars see card, colored page 206.

George S. Ganoung, Plain and Ornamental Painter, Mecklenburgh, N. Y., gives special attention to all work requiring skill and taste. Give him your patronage and you will have your work done by a first-class artist. His card appears on page 222.

Burke, Fitzsimons, Hone & Co., Importers, Jobbers and Retailers of Dry Goods, Fancy Goods and Woolens, No. 53 Main street, Rochester, publish a card on page 256. This House was established in 1849, since which time its success has been uninterrupted, each year increasing its amount of business. Their annual sales amount to the enormous sum of near \$1,500,000, their trade extending from the Eastern portions of the State to the "Far West." Occupying, as they do, fully 25,000 feet of flooring in actual business departments, every portion of which is crowded with immense piles of goods from foreign countries, as well as of domestic manufacture, renders the facilities of this house for Jobbing equal to any in the country. The firm are also proprietors of the "Genesee Falls Woolen Mills," where they manufacture 100,000 yards of goods annually.

Dodge & Lord, manufacturers of Melodeons and Reed Organs, at Ithaca, N. Y., were formerly connected with Syracuse manufactories. They have since moved their business where lumber is cheap, and expenses less than in the larger cities, like New York, Boston, Albany or Syracuse. The styles of their organs are particularly their own, possessing all modern improvements, and some unknown to other manufacturers. They have found market for their instruments in every county of the State, and in Northern Pennsylvania and New Jersey, and have an increasing trade with the West, in all of which places they are brought into successful competition with the first Eastern manufacturers. They are both practical men, and have secured workmen of long experience and tried abilities. Situated midway between the Erie and N. Y. C. railroads, they can ship conveniently to all parts of the country. See card, page 230.

J. C. Risdon, dealer in Plastic Slate and Slate Tile, No. 8 Baldwin St., Elmira, N. Y., publishes a card on colored page 102. After experimenting upon various substances for several years, a substance has been found which answers all the requirements of a first-class slate. The materials are simply slate-stone (finely pulverized) and coal tar. Associated in geology, perhaps originally combined, an affinity is found to exist, and being brought into contact, a union is formed which no power can dissolve. It adapts itself to every shape and condition, is non-combustible and impervious. Neither water or steam can penetrate or dissolve it. It is undecaying and fire-proof, and will last as long as the structure that sustains it. The most intense heat or cold will not expand or contract it. Slate tile is known to every school boy and needs no recommendation.

Williams & Pike, proprietors of Livery and Exchange Stable, corner of Madison and Montgomery streets, Watkins, N. Y., keep some of the best teams to be found in this region, and furnish them at reasonable rates. See card, page 222.

PUBLISHER'S NOTICES.

Whitaker Brothers, dealers in Groceries and Dry Goods, Horseheads, N. Y., publish a card on colored page 102. This is one of the most reliable firms in the village, and by their integrity, industry and gentlemanly deportment, have built up an extensive business. They keep constantly on hand a large and well selected assortment of all goods in their line, which they will sell at prices to suit the times.

The Reynold's Steel Tempering Works, Reynolds, Barber & Co., Proprietors, at Auburn, are largely engaged in the manufacture of Reaper and Mower Knives, Plane Irons, Chisels, &c. The process by which they temper steel is a peculiar one, and, as patented by Mr. Reynolds, is the result of over forty years labor. This gentleman always worked on the plan that tempering steel was simply changing it from a *fibrous* to a *granular* state. He certainly has succeeded in producing a finer granulation (temper) than has ever before been produced. Messrs. Reynolds, Barber & Co. control the patents for these processes, and are applying them successfully in all their manufactures.— Their establishment is capable of turning out an immense amount of work, yet their orders are now, and have been for some months, accumulating far in advance of their present ability to supply; a circumstance which they will not long allow to be the case. We predict that the time is not far distant when all Mower and Reaper Factories and farmers will use their improved sections. See their advertisement on page 6, fronting the Introduction.

Daniel Holmes, M. D., Physician and Surgeon, Elmira, N. Y., may be found at No. 41 Baldwin street, where he will treat all diseases on the most scientific principles. All the modern improvements in medicine and surgery are adopted by Dr. Holmes, who has had twenty years experience, besides a good literary and medical education, preparing him to render efficient aid in the line of his profession. Having made Cancer a speciality for many years, he is now treating it successfully and scientifically, there being no *quackery* about his practice. Particular attention given to surgery and the treatment of all diseases of a delicate and embarrassing nature. See card, page 158.

C. W. Fay & Co., Merchant Tailors and dealers in Ready-made Clothing, publish a card on page 200. Those who have visited this establishment, (and who has not?) were astonished at the large stock and the admirable selections of goods in this store; and the multitude of boys and men who have purchased their clothing here, assert that this is the place to procure an outfit. Everything, from a suit of clothes to a paper collar, for men and boys, can here be procured at low prices. Remember the place, corner of Water and Baldwin streets, Elmira, N. Y.

Richard S. Sheckels, Hair Dressing and Shaving Rooms, Elmira, N. Y., are fitted up in elegant style, for the execution of all branches of the hair dressing business. Special attention given to cutting hair to suit the physiognomy. Ladies' and Gents' hair dyed a natural brown or black; curling, shampooing, &c., performed in the most approved style. Let all grey beards and grizzly pates call at Sheckel's room, and their best friends will not recognize them on their exit. See card, colored page 120.

A. W. Ayers, proprietor of Elmira Marble Works, on Water street, is offering great inducements to the inhabitants of Chemung and Schuyler counties. Every kind of work executed in marble in this part of the country can be obtained at his manufactory at Elmira, and at reasonable rates. Slabs, Grave Stones and Monuments, of Italian or American marble, of the most beautiful design and the most perfect finish, can be procured at short notice. He has also a choice assortment of Granite Monuments, from the Quincy and Concord quarries, shipped direct to his order. His Marble and Slate Mantles, (with grates ready for use,) are far superior to anything of the kind we have ever seen.— We advise all who are in search of nice mantles to examine these before purchasing elsewhere. For convenience, durability and elegance, they are unsurpassed by anything in this region. See card, page 158.

W. C. Dutcher, Grape Vine Propagator, at Naples, publishes a card on page 196. Persons desiring choice vines will do well to examine his extensive stock and large variety. Mr. Dutcher also grows all the choice varieties of Grapes for market, which he puts up in first class style for winter, or for present use. Parties at a distance can be supplied at favorable rates with this most luscious of fruits.

The Crystal Spring House, Barrington, Yates County N. Y., is a new and commodious Hotel, situated in a beautiful part of the country, and designed to accommodate those in search of health or pleasure. Dr. E. W. Rogers, a physician of twenty years experience, is employed, and gives his attention daily to the wants of the guests of the house. The water possesses rare medicinal qualities, and the place bids fair to become one of the most desirable summer resorts in the country. S. H. Wadsworth, the proprietor, is untiring in his endeavors to minister to the wants of his guests. See card, page 204.

A. H. & E. P. Quigley, of Trumansburgh, Tompkins Co., deal in all kinds of Flagging. Their quarries on Cayuga Lake are extensive, and their trade extends to a great distance. Orders will receive prompt attention at their hands. We refer all parties who are anxious to secure the best quality of Flagging, to their card on page 242.

MASONIC---WATKINS.

Jefferson Lodge, No. 332, F. & A. M.--Dispensation granted Dec. 19th, 1853, by Most Worshipful Joseph D. Evans, then Grand Master of the State of New York, on the application of Lemuel Hudson, Abel B. Turrell, Ebenezer Thayer, Geo. B. Guinn, Jr., Oscar Holden, Alonzo Simmons, Benoni Peck and Judson Hewett.

The officers named in the Dispensation were Lemuel Hudson, Master; Abel B. Turrell, Senior Warden; Ebenezer Thayer, Junior Warden.

The first meeting was held Dec. 21st, 1853. At the regular communication of the Grand Lodge, on June 26th, 1854, a warrant was granted, and on the evening of the 9th day of August, 1854, the Lodge was instituted and the officers duly installed by Worshipful Brother James S. French, by authority given him by the Most Worshipful Joseph D. Evans, then Grand Master of the State.

The officers named in the warrant were Lemuel Hudson, Master; Judson Hewett, Senior Warden; Ebenezer Thayer, Junior Warden. The increase in the Lodge, as shown by the number of members returned to the Grand Lodge in each year, is given in the following statement, which shows the actual number in good standing each year,—viz: At the reception of the dispensation 8.

June, 1854,	12	June, 1862,	55
" 1855,	19	" 1863,	58
" 1856,	26	" 1864,	72
" 1857,	32	" 1865,	88
" 1858,	28	" 1866,	96
" 1859,	46	" 1867,	113
" 1860,	50	" 1868,	134
" 1861,	60		

The following list gives the names of the first three officers elected in December of each year since the organization of the Lodge:

MASTER.	SEN. WARDEN.	JUN. WARDEN.
Dec. 1854, Judson Hewitt,	Ebenezer Thayer.	Lot B. Davis.
" 1855, " "	S. H. Thompson,	Miles B. Norton.
" 1856, " "	" "	" " "
" 1857, Lot B. Davis.	Isaac S. Marshal.	John J. Smith.
" 1858, Isaac S. Marshall.	C. Van Allen.	C. J. Baskins.
" 1859, " " "	C. J. Baskins.	H. R. Seymour.
" 1860, C. Van Allen.	H. R. Seymour.	E. D. Tompkins.
" 1861, E. D. Tompkins.	A. Ellis.	G. D. Norman.
" 1862, " " "	L. K. Garfield.	R. D. Crum.
" 1863, John J. Smith.	H. R. Seymour.	E. C. Robbins.
" 1864, " " "	H. E. Curtis.	G. D. Norman.
" 1865, " " "	A. J. Graham.	C. H. Firman.
" 1866, " " "	L. M. Gano.	C. Sharp.
" 1867, L. M. Gano.	J. H. Ellis.	B. L. Shay.

The regular communications are on the first and third Wednesdays of each month. Lodge room on the third floor of Smith & Tompkins Block, opposite the Jefferson House.

OFFICERS FOR 1868.

L. M. Gano,	Master.	M. W. Thurston,	S. M. C.

Watkins Chapter, No. 182, Royal Arch Masons.--Dispensation granted by Darius A. Ogden, Grand High Priest of the Grand Royal Arch Chapter of the State of New York, June 20th, 1864. Officers named in Dispensation:

Comp. Isaac S. Marshall, High Priest.
 " Daniel Beach, King.
 " David P. Dey, Scribe.

Chapter instituted under Dispensation July 28, 1864. No. of Exaltations under Dispensation was 13.

Warrant granted Feb. 5th, 1865. Officers named in Warrant:

Comp. Edwin D. Tompkins, High Priest.
 " Albert Ellis, King.
 " George True, Scribe.

Most Excellent Horace S. Taylor, Grand High Priest of the Grand Chapter, through Dispensation to Comp. H. W. McGonegal, instituted the Chapter and the following officers were installed, Monday, March 4th, 1865:

Comp. Edwin D. Tompkins, High Priest.
 " Albert Ellis, King.
 " George G. Frew, Scribe.
 " O. West Lackey, Capt. Host.
 " Edwin C. Robbins, Prin. Soj'r.
 " George D. Norman, R. A. C.
 " James D. Voak, M. 3 V.
 " Lot B. Davis, M. 2 V.
 " David C. Roe, M. 1 V.
 " George D. Norman, Sec'y.
 " Archibald Robbins, Treas.
 " William T. Haas, Tyler.

Exaltations for year 1865, were 23.

Officers installed under Warrant:

1866.
 Jan'y. 19. Edwin D. Tompkins, High Priest.
 Albert Ellis, King.
 George G. Frew, Scribe.

Exaltations for year 1866, were 13.

1867.
 Jan'y 1, Edwin D. Tompkins, High Priest.
 Austin J. Graham, King.
 John J. Smith, Scribe.

Exaltations for the year 1867, were 30.

1868.
 Jan'y 13, Edwin D. Tompkins, High Priest.
 James D. Voak, King.
 Amasa H. Nichols, Scribe.

Chapter meets 2d and 4th Mondays in each month, in Masonic Hall.

PUBLISHER'S NOTICES.

James H. Arnold, dealer in Furniture, Looking Glasses, Picture Frames, &c., Mecklenburgh, N. Y., publishes a card on page 222. His stock is extensive and various, and those in want of a nice chamber set or furniture for the parlor or kitchen, will find something to their taste. Undertaking attended to at all times.

Cole's Patent Wedge Tongue Trace Buckle, as manufactured by Messrs. Harrell & Sargeant, at Syracuse, have secured a high reputation wherever they have been introduced. As the advertisement gives a good idea of the improvement, we advise the reader to peruse it.—See card, page 204.

Thomas S. Flood, Druggist, Elmira, N. Y., puts up prescriptions in the most careful manner. He also keeps a good assortment of fancy goods and toilet articles. Teas and Liquors are specialties, and the best in the market can always be found in his store. Call at 81 Water street. See card, colored page 205.

Voorhees & Co., manufacturers and dealers in Hats, Caps, Furs and Gents' Furnishing Goods, Watkins, N. Y., publish a card on page 196. If you wish a new hat call on V. & Co., and if your old one needs repairing you can have it made almost as good as new by calling at the same place. Trunks, Valises, Traveling Bags, and everything usually kept in a first-class establishment, can be found here at all times. Their stock of Furs has been largely increased for the fall and winter trade.

The Auburn File Works, situated on Market street, is one of the Institutions of Auburn. Since it came under the management of the present proprietor, this establishment has gained a wide and enviable reputation for the superior excellence of his hand-cut files and rasps, of which he turns out from 150 to 200 dozen per week. He employs from 20 to 25 of the best mechanics to be found. Among the varieties turned out are all kinds of flat, hand, mill, round, square, three-square, slotting, knife, pit saw and cabinet files and rasps, taper saw and extra horse rasps, from the best warranted English cast steel. Such is the reputation of these Files that they are universally adopted throughout the manufactories of Auburn, where they are considered superior to all others. We advise all mill owners, machinists and mechanics generally, who have not already become acquainted with their excellence, to do so upon the first opportunity. See card, page 218.

J. T. Brockway, dealer in Groceries and Provisions, 65 Washington St., Elmira, N. Y. This well known house is known to canal men as the "Junction House," where Hay, Grain and Feed of all kinds, for man and beast, are furnished on reasonable terms and in all required quantities. See card, page 167, and call on him.

The Havana Journal, published by A. C. Ball, Havana, N. Y., is a large eight column paper with a large and increasing circulation. It is one of the best advertising mediums in this and adjoining counties. As a family newspaper it has no superior in the county. The present enterprising publisher is determined to spare no pains to make it worthy of patronage. All kinds of job work executed in the neatest and most expeditious manner. See card, page 214.

Warren Wight, Propagator and dealer in the celebrated *Seneca Black Cap* and Davison's Thornless Raspberries, Grape Vines, Strawberries, and other small fruits, at Waterloo, Seneca Co., publishes a card on page 218. His experience in the business is large, and his soil is excellent, probably no better can be found in the State for the purpose he uses it. We advise our friends to peruse his advertisement and purchase their supplies of him. He uses great care in packing for shipment, and sends out none but first-class plants. It would do no harm to address him for a circular, and might be the means of affording you an abundance of his delicious fruits.

Wickes & Moore, manufacturers and dealers in Furniture of all kinds, Watkins, N. Y., publish a card on colored page 187, where they call attention to their large stock of furniture of their own manufacture. Mr. W. is a practical cabinet maker of fifteen years experience, and has long been known to the people of Watkins for his integrity and fair dealing. Mr. M. came from Geneva, where he was well and favorably known as an Exchange Broker and Insurance Agent. A large capital is invested, and their stock comprises the newest and richest styles to be found in Boston and New York. The manufacturing branch in cabinet ware, upholstery goods and bedding, is carried on in the most thorough manner, aiming to give full satisfaction as to quality and price. No imperfect goods are allowed to go out of the shop. The splendid Hearse used in the undertaker's department is new and is unsurpassed in this region. The stock in this department is large and well selected; Mr. N. T. Haas, having charge of that department, has made this a specialty for more than twenty years. Goods are delivered free of charge in Havana and places adjacent to Watkins, and the trade is supplied at North Hector, Lodi, Ovid, Dreden, Starkey and Big Stream, on Seneca Lake, and considerable quantities are shipped also to Geneva, Elmira, Corning and Northern Pennsylvania. For enterprise and fair dealing this firm has a well established reputation for sending out none but the best made cabinet ware from their shop. Special advantages offered to those fitting up hotels. Lumber taken in exchange for goods. Mr. M. represents some of the best Life and Fire Insurance Companies in the country, and is doing a large business in that line.

NOTICES OF THE PRESS.

(From The Syracuse Daily Standard.)

The Mammoth Musical Emporium of Redington & Howe.

For some time we have designed an account of this immense establishment, that our readers might be posted in regard to one of the leading business establishments of our city, and which has been brought so rapidly to magnitude by the well directed tact and indomitable energy of its proprietors.

The store No. 2 Wieting Block, is one of the largest and most elegant on the main thoroughfare, and right in the very centre of the business part of the town. As we pass along the street, and more especially on entering the store, the eye is attracted by the elaborate and tastefully arranged exhibit in the show window of all the smaller class of musical instruments, &c., that make as an attractive a display as any window on South Salina Street. As we enter, glancing to the right, the eye quickly runs over a large array of Guitars, Violins, and all varieties of musical instruments and wares, on shelves, hanging up, and in cases. Upon the counter of this department is a Burdett Reed Organ, in a most elaborately carved case, worth \$1,500. It is a beauty. Next, upon the same side, we come to a long counter, behind which the shelves are loaded with Sheet Music. Prof. T. H. Hinton superintends this department; the best guarantee that the assortment is not only well selected but complete. The opposite side of the store is crowded with Steinway and Dunham Pianos, the sides being lined with the unequalled Vox Humana Organs: with a large variety of Piano and Melodeon covers, and stools added above.

Passing by the center arch we come to rows and rows more of Pianos, Organs and Melodeons, of all varieties and styles. On the right is the department for Music Books,—a branch to which this house gives the most prompt attention. Drawers the entire length of the store (140 feet) are devoted to the storage of Violin and Guitar strings, Accordeons, Harmonicas, Piano Polish, and multitude of the different wares to be found in a complete music store, for the wholesale as well as retail trade. And still above, we find more Piano and Melodeon stools, cords of Violins, Guitars, Banjos, Drums, &c., &c. Goods are also stored in the basement—the whole size of the main store—finished and lighted for the purpose.

In glancing through this great establishment one particularly notices the large stock and *variety* of Piano Fortes, Organs and Melodeons, numbering more than fifty different kinds. The speciality of the proprietors is first-class instruments—on which the public can rely implicitly as being worthy in every way of confidence. This is an important matter for purchasers. Many dealers do not hesitate to tell buyers that second grade instruments are first class. Sometimes small dealers are really ignorant of what is a first class instrument. Others are themselves manufacturers of second quality instruments, and of course are bound to call their own as good as any made. Sometimes, also, they sell second and third rate goods as first grade for outrageous profits, calculating on only a brief business career in each place they visit. We say then, be careful to buy first class goods, and at a house where they are sure to have such.

Messrs. Redington & Howe, in a twelve years business history, have earned an unblemished reputation for giving perfect satisfaction to their customers. This they accomplish by *knowing* that everything sent out by them is exactly what it is represented to be. Besides, they are independent of any particu-

lar factory, and therefore the better fitted to judge between different makers. While R. & H. make a speciality of first class goods, they are enabled through their great advantages in buying, to sell second and third grade instruments at cheaper rates than any house in Central or Western New York. They buy at the large factories east, at a price actually less than the small makers can manufacture. The proof of the matter is in the trying. We say, go to Redington & Howe's and see what their facilities are. Their establishment is well worth a visit, even if one does not wish to buy anything. All will be made welcome.

(From the Syracuse Daily Courier and Union.)

THE IMMENSE MUSICAL ESTABLISHMENT OF REDINGTON & HOWE.—The enterprising wholesale Music Dealers of our city, Messrs. Redington & Howe, have just closed a most successful business year. Their sales have been immense—something entirely unparalleled in the history of the Music trade in Central New York. They have deserved their increasing success. Their store is the most magnificent emporium between New York and Chicago. Their stock would supply a dozen ordinary city music stores. Theirs is the only strictly wholesale Music House in the State outside of New York City. They have even some advantages over the Metropolitan houses. Our Syracuse wholesale store keeps constantly on hand, the Pianos; Organs and Melodeons, of several different makers, (a total of eighteen, with over fifty different varieties,) while New York houses keep only one maker's instruments. Besides, business expenses are much less in Syracuse than in New York; consequently Redington & Howe are diverting much wholesale trade from New York, and building up for themselves a mammoth business in supplying *dealers*. The question is sometimes asked, whether other dealers cannot buy in New York, as cheaply as Redington & Howe. The dealers have thoroughly satisfied *themselves* that they cannot, for there is not a house in Central New York that will agree to take the great quantities of Musical Goods that Redington & Howe buy. Consequently, others *have* to buy on a higher tariff. It is on the same principle that Stewart of New York forced a neighboring house to withdraw. He could sell at a profit, cheaper than his competitor could buy. Messrs. Redington & Howe, have similar purchasing facilities. Indeed, they can justly be called the "Stewarts" of the Music trade in Central New York.

We are glad, also, to notice that Redington & Howe do a *first class* business in the Pianos, Organs and Melodeons they furnish. Their principal stock is composed of first grade instruments. These they advertise and recommend because they *know* their reliability. This house can furnish second class instruments cheaper than any other establishment in Central New York. (for the reason of buying cheaper,) so that if purchasers want a *low-priced* instrument, Redington & Howe's is the place to procure it. We advise our readers not to buy *any* instrument without first seeing or writing to Redington & Howe. They will also tell honestly the quality of the goods.

Another point: this house is financially responsible for all they recommend. Besides having the largest capital in the Music business in Central New York, they are backed up by as much more as they choose to call upon.

For everything in the musical line, go to Redington & Howe, No. 2 Wieting Block.

(From The Rochester Daily Union.)

"The House of Redington & Howe is attracting the attention of the trade everywhere, on account of their superior facilities for wholesaling the acknowledged first-class Pianos, Organs and Melodeons, as well as every variety of Musical Merchandise.

From the Syracuse Daily Journal.

They have a musical emporium second to none west of New York city. In saying this we do but simple justice to Messrs. Redington & Howe, who occupy one of the largest stores in Central New York, fitted up with an especial view to the accommodation of their rapidly increasing business. The various departments of the musical business have each received proper attention, and each is conducted with a view to meet the demands and cater to the tastes of a most fastidious public. First and foremost, Messrs. Redington & Howe have in their Piano Department a full line of the various makes of Pianos, thus restricting purchasers to no particular make of Piano, but affording them unusual facilities for the comparing of the various instruments. They have in their Organ and Melodeon Department all of the most approved instruments manufactured, and offer inducements superior to any establishment, to persons desirous of purchasing this kind of instruments. In this, as in the Piano trade, Messrs Redington & Howe have the exclusive State agency for the sale of certain makes of Pianos, Organs and Melodeons, and all business connected with such instruments passes through their hands, thus giving them a chance to furnish at lower rates than any other establishment outside of the manufacturers.

This statement is established beyond a doubt, from the fact that the manufacturers of the best grades of instruments refuse to furnish smaller dealers with instruments as low as they do those dealers whom they designate as their wholesale agents. The fact is well known and conceded by all persons that any article can be manufactured at less cost where the manufacturers are turning out hundreds of such articles monthly than they can be made by manufacturers who make on a smaller scale. This would lead to the conclusion that this line of goods can be sold by Messrs. R. & H. at the lowest possible figures.

In the smaller instrument department their stock embraces the most complete and varied assortment ever opened in Central New York, with instruments from the various leading manufactories of this and other States. The sheet music department of this firm is one of the especial features of their trade, and to enable them to be first and foremost in the introduction of all new and popular sheet music, they have secured the services of our well known townsman, Professor T. H. Hinton, who superintends this department. His well known capability, is the surest guarantee of the manner in which this branch of their trade is conducted. In this department at all times may be found all the latest vocal and instrumental gems issued in New York, Philadelphia and Boston which will be received so as to enable Messrs Redington & Howe to offer them to the public simultaneous with their appearance in the Eastern cities. The department of general musical merchandise has been supplied with everything pertaining in any wise to music, and which assortment they keep fully supplied.

The immense musical emporium of Messrs. R. & H. is open at all times to musicians and the public generally as a place where they can call at all hours of the day and examine for themselves the various features of a well conducted and stocked musical establishment. The acknowledged leadership in the musical business has secured for them the ticket-selling of all operas, concerts and other first class entertainments given in our city.

From the Daily Journal Oct., 24th, 1868.

SOMETHING NEW AND BEAUTIFUL.—Messrs Redington & Howe have just received a newly patented Burdett organ, with what we should call a Fairy Bell accompaniment. By means of a stop the effect of a beautiful music box or Mandoline is added. The organ is a perfect gem—worthy of a special visit to their store.

This house is always foremost in introducing to the public in Central New York the various really valuable improvements that appear in musical

instruments. They are just as careful to reject the humbugs, and have actually declined the agency of several pianos and organs which less informed dealers here have since adopted and are trying to sell.

The immense business acquaintance of Redington & Howe, together with their high reputation in New York, Boston and Chicago, as the strongest and most energetic house in New York State (outside of the city), secures to them the first choice in regard to the agency of any manufacturers of musical instruments in the United States.

Their Mammoth trade enables them to buy cheaper than any other Central New York House, as they buy so much more largely. While their principal trade is in *first-class* articles, they are able to furnish second or third grade instruments, cheaper than the first cost of manufacture in this city. They buy of large eastern factories, which, on account of operating on a larger basis, can manufacture much cheaper than small concerns. And R. & H. buy very closely, because buying so much. On this account they can and do sell cheaper—qualities of the goods being considered, than any other house. For this reason parties in Albany, Troy, Utica, Rochester and Buffalo are sending to Redington & Howe for instruments.

We advise our readers to call there—No. 2 Wieting block—by all means, before buying any musical instrument or merchandise.

(From The Northern Christian Advocate, Auburn.)

"This is an old House, and has the best kind of a record for prompt business ability and for reliable and honorable dealing. They secure perfect satisfaction to all customers, whether wholesale or retail. Their facilities are the best of any establishment in Central or Western New York, and their prices correspondingly liberal. Pastors, Churches, Sabbath Schools and families will do well to correspond with or visit this House. Redington & Howe are known to us and we can recommend them as reliable dealers."

(From The Auburn Daily Advertiser.)

"A prompt, honorable House, who have the best facilities in Western New York for the Music Business, and who secure satisfaction to all customers."

(From The Oswego Daily Palladium.)

"They are thorough, honorable business men, with a larger capital and better facilities than any House in the State, outside of New York City. They keep the best instruments manufactured, and are fully responsible for the warrant they give of perfect satisfaction. We are certain that our citizens will do well to visit or correspond with this House."

From the Syracuse Daily Journal, Nov., 14th, 1868.

MUCH MUSIC.—We had no adequate idea of the magnitude of Redington & Howe's transactions in musical instruments until permitted the other day to see their order book. We were surprised at the number of instruments making their way over the country. We noticed especially a single order recently sent, which surpasses the entire yearly business of many retail establishments. The order was for one hundred and seven Burdett organs and melodeons, having an aggregate value of over \$20,000. We now see why Redington & Howe pay the only wholesale dealer's license in the music line, assessed by "Uncle Sam" in Central New York. They sell such large quantities because they can sell cheaper than any other dealers, (as low, if necessary, as their competitors buy or manufacture their goods.) They are also well known to be entirely reliable and honorable in their transactions.

Numbers, Description and Prices, OF THE **DUNHAM PIANO-FORTE.**

No. 1—7	Octave.—Rosewood. Large front round corners, moulding on plinth, octagon legs, carved lyre, scroll desk.	\$550
No. 2—7	Octave.—Rosewood. Large front round corners, carved legs and lyre, scroll desk.	575
No. 3—7	Octave.—Rosewood. Large front round corners, serpentine and fancy moulding on plinth, Gothic legs, carved lyre, scroll desk, beveled top.	600
No. 4—7	Octave.—Rosewood. Large front round corners, serpentine and fancy moulding on plinth, carved legs and lyre, scroll desk, beveled top.	625
No. 5—7	Octave.—Rosewood. Four round corners, pearl and serpentine mouldings on plinth, carved legs and lyre, scroll desk, beveled top.	650
No. 6—7½	Octave.—Rosewood. Large front round corners, serpentine and fancy mouldings on plinth, carved legs, and lyre, scroll desk, beveled top.	725
No. 7—7½	Octave.—Rosewood. Four large round corners, pearl and serpentine mouldings on plinth, richly carved legs and lyre, etc.	750
No. 8—7½	Octave.—Rosewood. Four large round corners, heavy mouldings on rim and plinth, rich serpentine moulding on plinth, rich carved legs and lyre, scroll desk, beveled top.	800
No. 9—7½	Octave.—Rosewood. Same style of case as No. 8, with agraffe arrangements throughout.	900
No. 10—7	Octave.—Rosewood. Upright or Boudoir Piano.	550
No. 11—7	Octave.—Rosewood. Large Grand Piano, French repeating action, richly carved legs, lyre, etc.	1200
No. 12—7½	Octave.—Rosewood. Same style of case as No. 11.	1500

TO THE PUBLIC.

The great combination of improvements attained in the Dunham Piano-Forte in regard to tone, touch, power, equality, durability and workmanship, has built for it a reputation which, to-day, stands unrivalled in every section of the country, and has also elicited from the most eminent professors, critics, connoisseurs, and the most energetic of our competitors, the unanimous opinion that the Dunham Piano can not be excelled.

Being confident that the production of a good article is the best and surest road to success, we have always aimed for perfection in our manufactures, regardless of cost. The patronage which such a course of business has gained for us, without the meretricious aid of Medals or Foreign Decorations, has proven satisfactory to us beyond our most sanguine expectations, and placed us in the highest position of the Piano-Forte trade.

While claiming as we do, without the fear of contradiction, for our house, the honor of first introducing to the American public this last great era of Piano-Forte improvement, which has given to American Pianos the highest honors, and whose perfections have astonished the world, we would state that the First Grand Square Piano made by us some fifteen years since, served as the model for the great improvement in American Piano Fortes.

We also own the patent, now expired, for the cross or Over-Strings, which is now in general use—so popular has it become, and so peculiarly satisfactory has it proved to us, that we freely gave it to the world.

The Agraffe arrangement we have used in Pianos for a period of thirty years.

MERITS OF THE DUNHAM PIANO-FORTE.

Its Durability has become a proverb.

Thousands of them can be found in use, which have required no repairs, other than tuning, during a period of thirty years.

In Workmanship, It cannot be surpassed if equaled.

The best materials and the most accomplished workmen, only are employed in its construction.

In Power, Solidity, Purity, and Equality of Tone, it has no compeer.

It is pronounced by the elite of the musical profession, and the *dilettanti* the most perfect Piano made.

As a Safe Investment, it is the best.

Dealers throughout the country, who have sold thousands of them during our business career, have never had one returned for being defective; nor have they, during a period of nearly twenty years, been called on to pay five dollars for repairs on the whole number sold.

It can be sold after years of use, for nearly, if not quite, its original cost.

We have orders for any quantity of them, at an advance of 33½ per cent over any other make of half its age.

It is warranted in the most satisfactory manner.

The commercial standing of our house is sufficient guarantee that any claim will meet with instant liquidation.

The Juries of the Universal Exposition of Paris, admit that American Pianos are the best, therefore Americans must be the best judges. Convinced that such is the fact, we have always striven to meet their critical requirements, and their approbation and patronage has been our reward; and we shall continue to manufacture such Instruments as will command the **HIGHEST POSITION IN THE ART**, regardless of Foreign Medals or Royal Decorations.

DUNHAM & SONS.

THE DUNHAM PIANO-FORTE.

In asking attention to the preceding circular of the manufacturers we add a few

REASONS FOR BUYING A DUNHAM PIANO.

This establishment is the oldest in the country and possessed of the most valuable experience, taking the lead in important improvements. (They were the inventors of the Overstrung Bass and own the Patent.)

They have the largest capital of any establishment, without exception.

Their workmanship is the most perfect and durable possible.

Their scales are the most perfect.

NOTE.—We ask attention to the following criticism from Watson's Art Journal.

" Their new square is one of the most beautiful instruments we ever heard. In depth, purity, and grandeur of tone, it can hardly be equaled ; its touch is exquisitely sensitive ; the registers are perfectly equalized ; it sings with a wonderful purity of vibration. and the quality of its sound is refined, limpid and melodious. and at the same time, great in sonority and brilliance.

It is truly a perfect Piano.

The house of Dunham has also been among the intellectual leaders of Piano improvers, and this new Piano is another step in advance, which will still further enhance its reputation."

The Action of the Dunham is perfect.

These Pianos have a peculiar timbre of tone, clear and melodeous, preferred by the majority of musicians to *that of any other Piano whatever.*

The price is more reasonable than that of any other first-class maker.

Finally the house is of the most honorable character and ensure beyond the possibility of doubt the *most perfect satisfaction* to every owner of one of the Dunham Pianos.

A most important improvement has just been introduced by Messrs. Dunham & Sons' in the construction of the Upright or Boudoir Piano.

The large size of the Full Scale Square Piano has always been an objection from the amount of standing room required for the instrument. The Upright form has always been preferred and is the popular style in Europe and among the older musical nations.

While possessing a quality of tone so peculiarly its own and generally preferred to the other grades of Pianos, an objection has always been raised to its general use on account of its complicated action. Messrs. Dunham & Sons have removed this great objection in the new

Dunham Upright Grand.

This Piano has all the merits of the compactness and beauty of form of the Upright pattern and employs at the same time the simple action of the Square Piano.

The arrangement of the Scale in the Dunham Upright is diagonal instead of perpendicular, thereby giving an immense advantage in *power and beauty of tone*, as well as in the arrangement of the action. In full, round, rich power

IT EQUALS A FULL SIZED CONCERT GRAND!

with an indescribable sweetness that the Grand does not possess.

Another most important feature is *the wonderful cheapness in price* as compared with the same quality and quantity of tone in any other form.

We are the Manufacturer's Special Agents for the State of New York and portions of some other States, and supply dealers of all grades, as well as retail customers, at the Factory Prices.

REDINGTON & HOWE,

MUSIC PUBLISHERS AND DEALERS.

THE STEINWAY PIANOS.

As these wonderful instruments are so well known, we do not take the space to re-produce their price list, (ranging from \$650, to \$1800.)

These Piano-Fortes have twice taken the first prize over all the Pianos of the World, and are universally acknowledged to be the best that are made.

We sell them at wholesale and retail at lowest factory prices, being the manufacturers exclusive agents in this vicinity.

REDINGTON & HOWE.

THE CHICKERING PIANO

has long stood at the Head. We are dealers in these magnificent instruments. Prices from \$550, upward.

The Hallet, Davis & Co., Piano.

This standard instrument maintains its well established superiority. The Compeer and only Boston rival of the Chickering, (having several times taken the first prize over its world renowned neighbor,) it is furnished by the manufacturers at a very small margin of profit. It is sold wonderfully low for such a complete first-class Piano Forte, affording customers a large saving of money. When we consider its extremely reasonable price, in connection with its unsurpassed quality and durability, and the unexcelled perfection and beauty of its scales, this Piano is UNRIVALLED.

Prices from \$450, upward. We supply the Trade.

THE BRADBURY PIANO,

is well known to be of superior merit. We have them at Wholesale and Retail. Prices from \$575, to \$1,000.

THE CENTRAL PIANO-FORTE COMPANY'S PIANO,

Manufactured by an association of workmen from Steinway's factory, so closely resembles the Steinway, as to be called the Steinway's Compeer. We sell these to the Trade on very favorable terms. Retail Prices \$545, and upwards.

HINTS ON THE PRESERVATION OF THE PIANO.

It is evident that if the Piano is to remain in good order for many years, good care must be taken of it. The instrument should be closed when not in use, in order to prevent the collection of dust, pins, etc., on the sound-board; however, it must not be closed for a period of several months or longer, but be opened occasionally, and the daylight allowed to strike the keys, or else the ivory may turn yellow.

Any hard substance, no matter how small, dropped inside the Piano, will cause a rattling, jarring noise.

It is in every case desirable that an india-rubber or cloth should protect the instrument from bruises and scratches, as well as dampness.

The Piano should not be placed in a damp room, or left open in a draught of air—dampness is its most dangerous enemy, causing the strings and turning pins to rust, the cloth used in the construction of the keys of action, to swell, whereby the mechanism will move sluggishly, or often stick altogether. This occurs chiefly in the summer season, and the best Pianos, made of the most thoroughly seasoned material, are necessarily the most affected by dampness, the absorption being more rapid. Extreme heat is scarcely less injurious. The Piano should not be placed very near to an open fire or a heated stove, nor over close to the hot air from furnaces now in general use.

Moths are very destructive to the cloth and felt used in the Piano, and may be kept out of it by placing a lump of camphor, wrapped in soft paper, in the inside corner, care being taken to renew it from time to time.

Many persons are unaware of the great importance of having their Pianos kept in order, and only tuned by a *competent tuner*. A new Piano should be tuned at least every three or four months, during the first year, and at longer intervals afterward.

How to Unpack a Piano.

Take out the screws holding the lid of the box, remove the lid, take out the Piano legs and lyre, remove the board across the inside box. Place two benches or strong wide chairs, which should be covered with a quilt or other soft substance, alongside the box where the back of the Piano is, slide the Piano toward the end where the legs were—about six inches, have the Piano lifted out by four persons, one at each corner, and set it on the two benches or chairs on its back.

Unscrew the cross-boards on each end of the bottom, and put the lyre and legs on, which are numbered 1, 2, 3, 4, for their respective places. Have the four persons lift the Piano off the benches and set it down so that the four legs will touch the floor at the same time. Unlock the instrument (the key will be found tied to the lyre,) and wipe off the dust lightly with a soft silk handkerchief, or piece of buck-skin.

Purchasing Musical Instruments.

There is, probably, no article of household equipment, the construction of which the majority of purchasers know so little of as pianos. There are few articles that are used so continuously, and for the length of time that pianos are, hence the importance of durability. The finest case may cover a fifth rate interior; a fine tone piano when new may subsequently prove to be made of cheap material that fails after a few years use.

Cheap Pianos with which the country is flooded, are invariably the most expensive in the end, *i. e.*, if we estimate loss of tone and constant annoyance by the instrument being out of repair, of any account. It is wisest therefore, for purchasers to get their instruments of dealers, if they are to be found, who are known as practical men, both musically and mechanically, as well as honorable.—*Ogdensburg Daily Journal*.

THE BURDETT ORGANS.

REDINGTON & HOWE,

Are happy to announce that they have secured the State Agency for the above Organs. Our own opinion agrees with the acknowledgement of all leading Musicians as to the great superiority of the Burdett Organ, with its present patented improvements.

A careful examination of these Instruments will convince any lover of the *beautiful* in music, that these organs contain more purity of tone—more variety of expression—more power, than any other Organ known.

We would call especial attention to their last great improvements, the COMBINATION ORGAN of Mr. Burdett, and the wonderful VOX CELESTE STOP; the CAMPANELLA ATTACHMENT of Mr. R. W. Carpenter, together with his IMPROVED VOX HUMANA TREMOLO. Also, the improved HARMONIC ATTACHMENT, (doubling the power;) the PATENT MANUAL SUB-BASS, (giving a wonderful depth and volume of tone;) the ORCHESTRAL SWELL; the DOUBLE BLOW PEDALS, and others.

THE COMBINATION ORGAN

Has one and a half Banks of Keys, with four Sets of Reeds, tuned in a manner to give the greatest variety possible in a Reed instrument.

We have only space to mention one peculiar and beautiful stop in the Combination Organ, the effect of which heretofore has never been heard in a Reed Organ.

THE VIOLINCELLO STOP,

used for solos alone, is most entrancing when used with the Vox Humana. It seems almost to speak words—certainly it speaks to the heart of every listener. No one should fail to make inquiry about this Organ.

THE VOX CELESTE STOP

Is a new and most valuable improvement, which brings into use an extra set of reeds, which, by their peculiar arrangement and method of tuning, produce a wonderfully beautiful string quality of tone, with a most astonishing power, surpassing all the previous efforts of the inventor. This admirable improvement, which has created such a sensation among Organ makers, as well as with the Musical Public, is found only in the Burdett Organ.

THE CAMPANELLA ATTACHMENT,

The latest and best of all Mr. Carpenters inventions, now for the first time placed before the public, will, when listened to, tell its own sweet story. The Campanella is a stop resembling the tinkling of Fairy Bells, or the rippling waters of a fountain, making music so sweet and harmonious, that it passes Æolian-like over the senses—as passes the music of a Harp at night touched by Fairy fingers. This enchanting stop should certainly be heard by all lovers of music. The patent has been applied for by Mr. Carpenter, the inventor.

THE VOX HUMANA TREMOLO

of Mr. R. W. Carpenter, so much admired by musicians every where, needs only a word. It has already become a Household Glory, and no Organ is complete without the beauty it imparts to the tone. This stop should not be confounded with Mr. Carpenter's former invention. It is an *improved* Vox Humana—has no third pedal—is perfectly noiseless in its operation—has no clock work to get out of order—is entirely simple in construction—is found only in the Burdett Organ—and when once heard, delights and fascinates the listener.

We invite the most rigid scrutiny of these Organs by Dealers, the Profession and the Musical Public, to prove the justice of the title acknowledged to them as **THE BEST ORGAN IN THE WORLD.**

We have constantly on hand a large stock of these Excelsior Instruments. We supply all classes of dealers, as well as retail customers, at the lowest Factory rates. Agents will soon be found at all principal points.

Satisfaction warranted in all transactions. Send for Illustrated Catalogue.

REDINGTON & HOWE,

General Agents, No. 2, Weiting Block, Syracuse, N. Y.

 The Walnut Instruments are also furnished in elegantly carved Cases, at an advance of \$30 on the above prices.

THE ESTEY ORGANS.

This Veteran House (established in 1846) holds its rank at the head, and are now finishing every month hundreds of Organs and Melodeons, which are a just credit to American skill and enterprise.

The vast amount of patronage received, has been secured more by the actual merits of the instrument, than by extensive advertising and the pretentious parade of their wares before the public. They have employed and retained, from the first, some of the finest mechanics and inventors of the age, and have adopted, and patented more valuable improvements, than any other establishment in the land. As the result, their instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe-Organ builders and performers—the last to discover excellence in reed tones—pronounce them much superior to others.

They possess the following improvements:

THE PATENT HARMONIC ATTACHMENT is an octave coupler used on a single manual, and doubles the power of the instrument without increasing its size or number of reeds. Thus, by the use of this improvement, an Organ containing two sets of reeds is instantly made equivalent to one of four; and a tri-reed equals an instrument of six sets of reeds, making the most powerful instrument of its size yet known in this country.

THE PATENT MANUAL SUB-BASS brings into use an independent set of large and powerful SUB-BASS REEDS, which are played with the ordinary keys and controlled by a stop. The manner in which this set of reeds is placed upon the air chamber increases the volume of tone at least one-third. This new and valuable invention requires no extra room, and has all the effect of pedal bass, and can be used by any ordinary performer.

THE PATENT KNEE-SWELL, whereby the player has complete control over the instrument, obtaining a perfect CRESCENDO or DIMINUENDO, more beautiful than the Automatic Swell, or any other ever before used.

THE PATENT ORGAN BELLOWS greatly enhances the power and quality of the tone without increasing the size of the case.

THE PATENT REED BOARD, whereby the tone is greatly improved, rendering it more like a Pipe Organ than is found in any other instrument. This important improvement is covered by two patents.

THE PATENT VOX HUMANA TREMOLO.

In attempting to describe the effect of this stop, we are at a loss for language; its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon the Violin.

It changes entirely the reed-tone, giving the sympathetic sweetness of the HUMAN VOICE, making it so melodious and pure that it never fails to enchant the appreciative listener.

The Tremolo is produced by means of a REVOLVING FAN placed just back of the swell, which imparts to the tone a charming wave-like effect hitherto unknown in instrumental music.

THE VOX JUBILANTE

Is a new and beautiful stop, peculiar to the ESTEY ORGANS. The character of the tone is marked and wonderfully effective, giving a style of music hitherto unattained in instruments of this class. This is accomplished by an extra set of reeds, ingeniously arranged, and adjusted to meet this special, and hitherto unsupplied want. It is considered by competent judges a great success.

Send for Illustrated Catalogue, giving accurate pictures of the styles.

REDINGTON & HOWE,

Wholesale Agents.

Popularity of the Dunham Piano.

We are sometimes asked why the Dunham Piano Forte has not been more prominently before the public for the last eight years. We give the reason. At the commencement of the late war, the Dunham, senior, concluded to decrease the very large manufacturing done by himself, so long as public attention should be so completely absorbed in the stirring events then transpiring, consequently he diminished his force employed and sent during the war the greater portion of his pianos to the Canadian Provinces. (Where the demand for the Dunham Pianos call for more than five hundred instruments every year).

At the conclusion of the war, he associated with him two sons as partners, built a new factory, and the firm of JOHN B. DUNHAM & SONS are now manufacturing very largely.

The high opinion of their pianos entertained by Piano Dealers is evinced by the great desire of the principal houses to secure the Dunham agency.

Leiter Brother's Jewelry House.

These gentlemen occupy a portion of the shelf and counter room in our store with a very fine stock of well assorted Jewelry and Silver Ware. Their connections with a New York Importing House enable them to sell at wholesale and retail cheaper than any House west of New York City.

Situations for Music Teachers.

We keep a registry of Music Teachers in Central New York. Also a list of those desiring locations.

We can, therefore, always put parties in any town or village in correspondence with good reliable music teachers, who can be secured at reasonable rates. We charge nothing either to the teachers or the public. We act cheerfully without pay, as we desire to extend our acquaintance.

Teachers should send us their name, terms, &c., when desiring a new field of employment. Individuals wishing teachers are invited to write us freely at any time.

Wieting Hall.

The largest, best, most central and most popular Hall in the city, can be leased for Concerts, Lectures and all varieties of first class entertainments.

Particulars can be learned in our office.

Correspondence Invited.

It is impossible in our present limits to give full particulars of our trade and varieties of musical goods we sell. We invite thererore, inquiries by mail, or otherwise in regard to any department of the music business, We can send to any address, circulars with fuller details than our catalogue admits of, or forward written information. We do so with pleasure.

REMEMBER that it costs no more to write one thousand miles to us than five miles to some smaller House.

REMEMBER that we save you much more than cost of freight on what you buy of us. We guarantee to do it.

REMEMBER that unless you are satisfied with our treatment to you, *you have nothing to pay.*

AMERICAN

Button Hole, Overseaming

AND

SEWING MACHINE

COMBINED.

The first and only Button
Hole & Sewing Machine
Combined, in the
World.

It is also the CHEAPEST as well as the BEST, since
it is really

TWO MACHINES

Combined in One,

Making either the Lock Stitch or Button Hole Stitch, as occasion may require. It is at the same time simple in construction, almost noiseless, easily understood, and in a word it combines with those advantages exclusively its own, the most desirable qualities in all others.— It will work beautiful Button Holes, Eyelet Holes, Embroider over the edge, do Overseaming as by hand—also all kinds of Stitching, Hemming, Cording, Felling, Braiding, Ruffling, Tucking. Every Machine is warranted to give entire satisfaction to the purchaser. Instruction given on the Machine gratuitously.

Samples of work will be furnished upon application to

MRS. C. C. SHEFFIELD, GENERAL AGENT, ELMIRA, N. Y.

Salesroom on Baldwin Street, nearly opposite the Post Office, and
directly over the United States Express Office.

BURKE, FITZSIMONS, HONE & CO.,
Importers, Jobbers and Retailers
 OF
DRY GOODS AND FANCY GOODS,
 AND MANUFACTURERS OF
WOOLEN GOODS,
No. 53 Main Street,
 AND
Nos. 1, 3, 5, 7 and 9 North St. Paul Street,
ROCHESTER, - - N. Y.
