ANNOUNCEMENT.

IN presenting to our patrons this our first ITHACA CITY DIRECTORY, we desire to return sincere thanks to all who have in any way aided the enterprise. Our thanks are especially due to the editors of the Ithaca Daily *Journal*, Ithaca *Democrat* and Weekly *Ithacan*, who have in a kindly way called public attention to our efforts.

We call the attention of our patrons to the handsome Map which accompanies the work, and which we believe will be thoroughly appreciated by the public.

That errors may occur in a work requiring so much care and attention is very likely. We beg pardon of such as feel aggrieved in consequence of any errors or omissions. We have given more than ordinary attention and labor to the work, with the sole object in view of making a correct and thorough Directory for the use of our patrons.

The advertisers represent many of the leading business men and firms of the city, whom we most cheerfully commend to the patronage of those under whose observation these pages may come.

While thanking our patrons and friends generally for their liberality and cordiality in seconding our efforts, we take occasion to express the hope that the information found in these pages may prove interesting and invaluable.

THE PUBLISHER.

Oxide of Iron House Paints,
Oxide of Iron Floor Paints,
Oxide of Iron Roof Paints,
Colors in Oil,
Colors in Distemper,
Dry Colors.

**THEY ARE RECOMMENDED BY ALL THE PROMINENT
PAINTERS OF OUR CITY.**

A POSITIVE GUARANTEE.

We guarantee our Oxide of Iron Paint to be more durable than White Lead and Oil. It is not affected by changes in temperature; will not crack, blister, peel or flake, and will always dry with the highest possible finish. It will stand under all exposures, and will form a perfectly water-proof covering, very elastic and beautiful. If shown to our satisfaction that our Oxide of Iron Paints do not come up to the standard above, we will repaint any building on which the same has been applied, at our own expense, provided our directions for applying the same have been strictly followed, and the surface upon which the same was applied was in a proper condition to receive paint.
