## ANNOUNCEMENT.

---

We herewith present to the public our ITHACA CITY DIRECTORY for 1898, trusting that it will meet with the customary approval of its patrons and friends.

The house directory is a new feature which has taken much time and added largely to the expense. We trust it will be appreciated, and will look for our reward in the future.

The advertisers represent many of the leading business men and firms of the city, whom we cheerfully commend to the patronage of those under whose observation these pages may come.

While thanking our patrons and friends generally for their cordiality and liberality in seconding our efforts, we take occasion to express the hope that the information found in these pages may prove invaluable.

E. D. NORTON,  
GEO. HANFORD,

## Explanation of Whistle Signals.

---

The warning signal, to attract attention, will be a long blast of from fifteen to twenty seconds duration. After this warning signal has been sounded, long blasts (of from four to six seconds duration), refer to weather, and short blasts (of from one to three seconds duration) refer to temperature; those for weather to be sounded first.

| BLASTS.             | INDICATE,                            |
|---------------------|--------------------------------------|
| One long.....       | Fair weather.                        |
| Two long alone..... | Rain or snow, stationary temperature |
| Two long.....       | Rain or snow.                        |
| Three long.....     | Local rains.                         |
| One short.....      | Lower temperature.                   |
| Two short.....      | Higher temperature.                  |
| Three Short.....    | Cold wave.                           |

INTERPRETATION OF COMBINATION BLASTS,  
 One long, alone—Fair weather, stationary temperature.  
 One long and one short—Fair weather, lower temperature.  
 Two long and two short—Rain or snow, higher temperature.  
 One long and three short—Fair weather, cold wave.  
 Three long, and two short—Local rains, higher temperature.

ITHACA CITY DIRECTORY.

## STREET DIRECTORY.

Giving the name and location of each street and showing what other streets run from it or across it, with the number at which they intersect. From this list the location of any number on a street can be easily ascertained ; for instance, wishing to know on what part of E. State street No. 68 is, you find that Tioga street intersects State at No. 62 and Aurora at No. 88, showing that 68 is between Tioga and Aurora. A cypher (0) indicates there is no number ; a dash(—) no street intersects on that side. The words North, South, East, West, at the head of columns indicate the side of the street.
