Know Your Directory Publisher

They Are Alert to Protect You from the Directory
Faker, or from the Person With More
Ambition Than Experience

The Making of Directories is a task calling for organization, study and a faithfulness to duties seldom found in any line of endeavor. All directory publishers have a system of instruction and a probation period of employment which weeds out the applicants for employment who seem to be unfitted for the work or deficient, and it is surprising what a large percentage of these applicants fail to pass the test. It is, therefore, easy to understand that the publishing of directories is a task that only Houses of recognized merit can accomplish successfully. Throughout the United States are publishers who give their lives to the furnishing of City Directories in order that each respective city may have an up-to-date, reliable directory and for the protection of the public these reliable, experienced publishers have formed an organization called the Association of North American Directory Publishers. This organization has expended many thousands of dollars prosecuting fakers who preyed upon business houses in the guise of directory publishers. Sign no orders or receipts from so-called directory publishers unless you know the house with whom you are dealing. If in doubt ask the publishers of this Directory.

Cornell University

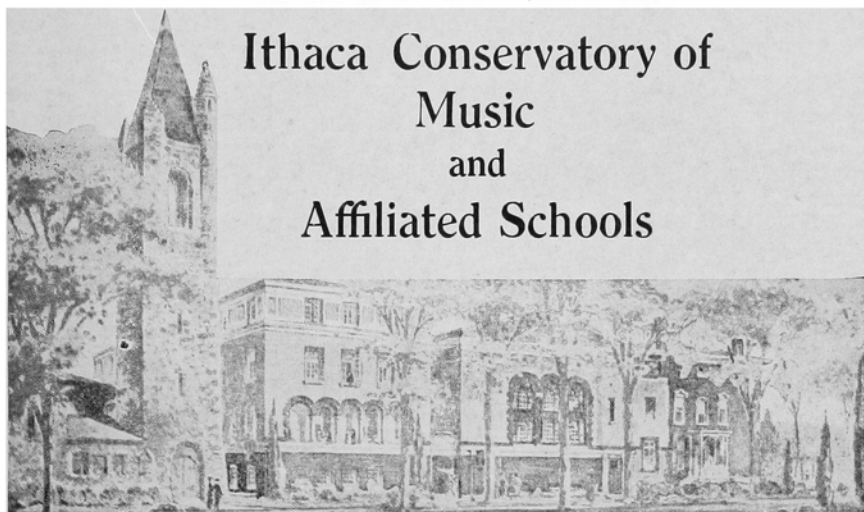

*"In the Beautiful
Finger Lakes Region"*

Cornell University, in the eastern part of the City of Ithaca, is famous among American seats of learning for the beauty of its situation. Its buildings, fifty or more in number, crown a hill which commands a wide view of Cayuga Lake, the valley of Ithaca, and the surrounding country. Its grounds are bounded on both sides by deep and precipitous gorges in which there are many picturesque waterfalls. The newer buildings on the campus are constructed of a beautiful stone which is quarried at several places in or very near the city. Adjoining the campus are farm lands used for experimental purposes. The extent of the University's lands altogether is about fourteen hundred acres.

The University comprises a Graduate School and Colleges of Arts and Sciences, Law, Medicine, Engineering, Architecture, Agriculture, and Veterinary Medicine and Surgery. The main division of the Medical College is in New York City. The State of New York maintains the Veterinary College and the College of Agriculture; the rest of the institution is privately endowed. Cornell has altogether about a thousand persons engaged in teaching, research and extension work, and about five thousand students. Its productive funds amount to approximately \$20,000,000, and the estimated value of its lands, buildings, and equipment is over \$9,000,000. Its income applicable to current expenses for the fiscal year 1923-24 was \$5,785,488. The University Library comprises 710,000 volumes, being one of the three or four largest collections of its kind in this country.

Cornell was opened in 1868, having been established by the State of New York to receive the State's share of the Federal Government's educational land grant of 1862. It was named in honor of Ezra Cornell, a wealthy and public-spirited citizen of Ithaca. To his generous gifts and wise management of the resources that were available under the land grant the University owes a large part of its endowment. It adopted as its motto a saying of Mr. Cornell: "I would found an institution where any person can find instruction in any study."

When You Place Your Ad in the City Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.

FOUNDED by the New York State Publishers Association for "the Advancement of the Printing Trades and not for Profit," the Empire State School of Printing offers instruction in Printing, Linotype and Intertype Operation and Mechanism and Presswork.

On the average a Printer earns more money in a year than any other skilled workman. The reason is that employment is constant at good wages under favorable conditions.

Six Months Intensive, Practical Course equivalent of two to three years apprentice training. The school has the most up-to-date equipment for instruction in Linotype and Intertype Operation and Mechanism in the country.

ITHACA

In the heart of the Famous Finger Lakes country and situated on the southern end of Lake Cayuga. It is surrounded by the wonders of nature only found in this region of the Finger Lakes. Falls, gorges, glens and dells are plentiful and under Parks and Points of Interest in this Directory can be found the details of some of the most prominent of the wonders of nature. The shores of Lake Cayuga are dotted with the summer cottages of Ithacans. Topographically Ithaca is in a class by itself among the cities of the country and no pen can adequately describe the many natural wonders within the city limits.

Ithaca is the county seat of Tompkins county, has a resident and student and college population of over 24,000. With its unrivaled scenic advantages and unusual educational facilities, it is preeminently a city of homes. It is also an important industrial center having large industries making guns, aeroplanes, chains, furniture, toys, bags, shirts, adding machines, advertising signs, cement, salt, etc. With such a diversity of resources as enumerated above it is easy to believe that Ithaca never has any business slumps of any proportions. There are seven educational institutions located here.

Ithaca has adequate transportation facilities as shown by the following: Lehigh Valley Railroad direct to New York City 250 miles east and to Buffalo 144 miles west; there are also two; branches of the Lehigh Valley Railroad connecting with nearby cities. The Delaware, Lackawanna & Western Railroad have a branch terminal here and through this fine system first class service is given to all points between New York and Buffalo; Central New York and Southern Railroad furnishes service to the north; bus line connections in all directions; terminal of the New York State Barge Canal System with terminal basin adjoining the railroad yards. It is the nearest port to the anthracite coal regions of Pennsylvania, through the port of Ithaca, coal can be trans-shipped by water to points thousands of miles inland, it is confidently expected that this will come to pass and thus greatly enhance the importance of the port of Ithaca. The kind of highways that New York state is famous for extend in all directions out Ithaca making this land of cataracts, towering cliffs, ravines and gorges easy of access.

There are 150 acres of parks and playgrounds which includes Stewart park located on Cayuga Lake. At this park is located an excellent bathing beach that affords comfort to thousands in the sweltering summer weather. A tourists, camping site with conveniences is located in this park. There are also within the city limits a bird sanctuary and three picturesque gorges of Cascadilla, Six Mile, and Fall Creeks and within a few minutes ride of the city are Taughannock Falls and Gorge, Butter Milk Falls, Coy Glen, Enfield Falls and Gorge.

Ithaca has the usual advantages of most cities of three times its size. Its streets, buildings, stores, theatres, schools, etc., are up to date and keeping pace with the steady growth of the city. There are thousands of visitors annually and its air of refinement coupled with its wonderful educational facilities and solid industrial structure and its commercial supremacy for a large and prosperous region make it a very desirable place to live and do business and augurs well for a large future.
