# A Free Information Bureau at Your Service

A TYPICAL FREE DIRECTORY LIBRARY

## Chamber of Commerce Rooms 210 N. Aurora St.

A Metropolitan service has been established by H.A. MANNING CO., Directory Publishers. These are official City Directories and may be consulted free for single reference by the general public. Your local City Directory is also on file in Directory Libraries in other cities for free public use.

Every City must have a Directory not only to give the names and addresses of its citizens, but also to give that character of progressiveness that would record the names of its people for historical purposes. Everyone has forefathers, these forefathers have made the history of this country. Someday you will be the forefather and your descendants can visualize your life's work quicker through the registration in the Directory of your time than in any other way. **THE BIOGRAPHICAL HISTORY OF THE MASSES IS CONTAINED IN THE CITY DIRECTORY AND NO OTHER PLACE.** That stamps its importance to the family. To make your history, watch your directory registration to see that it accurately records your position in life from year to year.

**THE CIRCULATION OF THE CITY DIRECTORY EXTENDS TO EVERY CITIZEN OF THIS CITY.** The Information Bureaus of the City are for **FREE** public use and your merchant, banker, physician, dentist, hotel, restaurant and garage man expect that the masses of the people shall, without hesitation, ask for "a look at the City Directory."

in electric and gas service in

Since our founding in Ithaca in 1852, we have kept everlastingly at the job of improving our service; through good times and bad. And the trend of our rates over the years has been steadily down. In spite of the inflation and our own rising costs, electricity and gas are still the bargains in your budget.

The publishers of this Directory consider it advisable and desirable to set forth the following paragraphs, in as simple and attractive a manner as possible, to enable the readers of these descriptive pages to comprehend as many of the outstanding features of Ithaca as limited space permits. The local resident, the visitor, and the distant reader about Ithaca wish to gain an impression of Ithaca as well as to have at hand a statistical reference regarding the city and its people. It is the publisher's aim to portray as much of Ithaca's charm and greatness as is consistent with facts. We believe with John Cotton Dana, the great librarian, that "Good citizenship springs from a knowledge about one's own community." The teachings of the City Map and the City Directory about localities, districts, street locations, street changes, growth of sections and general city changes are of great importance to property owners, old residents, new residents and school children. Racial characteristics of names in the Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants of the city and many other educational facts. Notable men all through history have contributed their philosophy as to the value of knowledge about the home town. Here is one from Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." In studying the following, remember that the Ithaca City Directory disseminates this information far and wide where this Directory represents Ithaca in the Free Directory Library Exchange System of North America. The Ithaca City Directory, with over 500 closely printed pages, is the City of Ithaca in book form; its family and social life, business and industrial life, is portrayed in great detail. The publishers invite and accept constructive criticism and suggestions for the improvement of the Directory for the benefit of Ithaca and all interested.

**LOCATION**—Ithaca, sometimes called in this section "Crown of Cayuga," and known far and wide as the home of Cornell University and Ithaca College, is famous for three things: its picturesque setting at the head of Cayuga Lake in the midst of the Finger Lakes Region; its culture and refined atmosphere in all activities of business and social life, its educational institutions. Located in the heart of western New York, it is 247 miles to New York City, 404 to Boston, 675 to Chicago, 302 to Philadelphia, 37 to Elmira, 40 to Geneva, 20 to Cortland, 57 to Syracuse, 175 to Albany, 170 to Schenectady, 88 to Rochester. Area is 6 square miles.

CASCADILLA GORGE, ONE OF THREE CUTTING THROUGH THE CITY OF ITHACA

**TOPOGRAPHY**—Many pages could be devoted to a description of Ithaca topographically. It is doubtful if any city in America has such a remarkable formation of level land, hills, cliffs, gorges and waterfalls. All this variety is so blended that it is most inspiring to the visitor to pass from one spectacle to another.

View shown is one of Ithaca's beautiful falls. For a mile and a half from lake shore, land is level and contains the business section of the city, railroad yards, stations, municipal airport; the heights are covered with beautiful homes, the extensive campus and buildings of Cornell University, some factories and even railroads which climb out of the city; the highlands of the city are gouged by great gorges beginning at the south with Buttermilk Falls Creek and George 1 mile south; Coy's Glen 3 miles in length; Six Mile Creek Gorge; Cascadilla Creek and Gorge, at south end of Cornell University Campus; Fall Creek Gorge, north of Cornell University Campus. (A more complete description of these gorges and waterfalls under Parks and Points of Interest—see index.) The altitude of the main section of the city is about 400 feet, the highlands 800 feet.

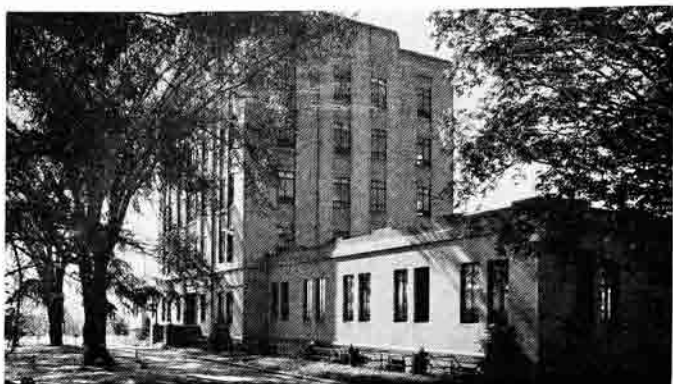

**HISTORICAL**—Ithaca was first settled in 1789. This was ten years after the visit of a detachment of 200 men commanded by Col. Dearborn from the expeditionary force of Gen. Sullivan, on Sept. 23, 1779. These first white settlers founded Ithaca, named by Simeon DeWitt in 1795. The Cayuga Indians, one of the six Nations, preserve the legend of the Great Spirit placing his hand upon the earth to form this region of the Finger Lakes. Organized as a village in 1821. Incorporated as city 1888. Ithaca celebrated in 1939 its 150th Anniversary.

ADMINISTRATION BUILDING AND LITTLE THEATER OF ITHACA COLLEGE

**POPULATION**—The population of Ithaca according to the 1950 Federal Census which included the students of Cornell and Ithaca Colleges was 29,395. The permanent year round population was estimated as 22,347 which is a gain of 2,700 in 10 years. In 1925 the state census gave 18,948. In 1920 it was 17,004; 1910, 14,802; 1900, 13,130; 1890, 11,072; present estimate 21,500. There are about 90% native born with native stock predominating, about 3% colored. The student population of greater Ithaca is about 11,000, making a total population over 32,000.

**MERCANTILE**—Ithaca is a trading center of 60,000 people and has stores that compare favorably with cities much larger. Because of the University population and a community educated to want the best, the retail establishments carry merchandise equalling in variety and quality the stocks of stores in leading eastern cities. Wholesale houses distribute over a large territory. There are about 400 retail establishments, 15 wholesale, and about 200 professional offices. The merchants of Ithaca are noted for their service and courteous treatment which have done much to make Ithaca popular as a trading center for those living outside of the city.

AN INDUSTRIAL BUILDING

**INDUSTRIAL**—Ithaca is not primarily a manufacturing city. However, there is an industrial structure that is well founded and varied in its products. In the very early days of Ithaca the spirit was industrial and that spirit has remained until the present. Among the principal products made here are: adding machines, dairying, rayon and cotton underwear, guns, ice cream, lantern slides, technical mirrors, leather hand bags, paper, power drive chains, precision instruments, pottery, salt, cement, window frames, woodworking, shirts, photo engraving. Ithaca has an unusually intelligent class of workmen. Living conditions are favorable. There are available sites for industrial plants on railroads. For further information write Ithaca Chamber of Commerce. Educational advantages for industrial workers and their families, include a liberal policy provision for vocational education and training in the public schools. In addition to two railroad transportation lines, and various motor truck services, there is the Ithaca terminus of the New York State barge canal. Ithaca is the nearest canal port point to the coal fields of Pennsylvania. Ithaca also has daily airline passenger service to New York City, Binghamton, Albany, Elmira, Rochester, Buffalo and Niagara Falls.

SCHOELLKOPF FIELD

**EDUCATIONAL**—Ithaca is among the leading educational centers of the state. There are 10 public schools and 1 parochial school. The school enrollment is 4,600 with 194 teachers and administrative staff. Cornell University, which is one of the great universities of North America, located on America's most beautiful campus overlooking the lower parts of the city and Lake Cayuga, was founded in 1865 by Ezra Cornell. The normal enrollment is about 10,000 students. The university includes colleges of Art and Science, Medicine, Law, Engineering, Architecture, the State Colleges of Agriculture, Veterinary Medicine, and Home Economics.

and a Graduate School and a School of Hotel Management. It occupies about 7,000 acres of land and 155 buildings, which with their equipment are valued at about \$30,000,000, while endowment add about \$40,000,000 more to the resources of the institutions. There are also located in the city Ithaca College, devoted to music, drama and physical education; The Cascadilla Tutoring School. There are four libraries, as follows: Cornell Library is located in the heart of the business district and gives an extensive service to the public; the Cornell University Library located on the campus has over 812,000 volumes including special collections having international fame; the Tompkins County Bar Association Library is located in Ithaca Savings Bank Building; the Free Directory Library maintained by the H. A. Manning Co. in the Chamber of Commerce Rooms at 210 N Aurora Street.

AN AIR VIEW OF CITY AND CORNELL CAMPUS

**PARKS, PLAYGROUNDS AND POINTS OF INTEREST**—The natural topography of the land here makes the city a natural park. There are three public parks within the city, the largest of which is located at the lake end of the city and has recreation and athletic facilities also an extensive bathing beach on Lake Cayuga. The Cornell Campus is extensive and supplies a very beautiful park-like effect for the upper part of the city. The following scenic beauty spots in and not far from the city are: Buttermilk Falls State Park, Cascadilla Glen, Cayuga Lake, Coys Glen, Robert H. Treman State Park, Fall Creek Gorge, Ithaca Gorge and Falls, Point Lookout, Taughannock Falls State Park, Watkins Glen State Park.\*

**FINANCIAL**—There are 3 banks, with total deposits of nearly \$50,000,000 and one savings and loan association. The gross assessed valuation of the city is \$63,000,000 with an exempt value of \$23,000,000. The per capita wealth is high. The city government has operated within its budget for the past 30 years, has a low bonded indebtedness, and the highest financial rating.

**TRANSPORTATION**—Ithaca is served by the main line of the Lehigh Valley Railroad and also by branch lines; the Ithaca and Owego Branch of the Delaware, Lackawanna and Western Railroad has a terminus here. The Ithaca Railway Inc., with a modern bus service serves completely within the city limits and interurban bus lines operating from a municipal terminal on East Green Street connect the city with Elmira, Watkins Glen, Binghamton, Cortland, Syracuse, Auburn, Seneca Falls, Rochester, New York City, etc. Ithaca is also the southern terminal of the New York Barge Canal system and is provided with docking facilities for boats operating on the canal. It is the nearest New York State port to the anthracite coal

fields of Pennsylvania. The Ithaca Municipal Airport is the second oldest in the state. It has been improved and enlarged, and is now 2,000' x 3,000' in size, with a 2,800' paved runway and a large modern hangar. It is within the city limits, and is five minutes by car from the business section. The new East Hill airport is used by the Robinson Airlines for air mail, air corps and air passenger transportation service. Student instruction and passenger flights are available in several planes. Ithaca is hub of network of highways such as make New York State famous. These highways carry a very heavy traffic for business and pleasure and especially in tourist season. The attractions of the scenic wonders of this region are drawing more and more tourists each year. The auto truck freight service is growing.

**MISCELLANEOUS STATISTICS**—Ithaca has an aldermanic form of government. There are 60 miles of streets with 30 first class paved. The water works capacity is 350,000,000 gallons with daily pump of 3,000,000 gallons. There is a good fire department with a combination volunteer and paid system, and there are 12 engines, and hose and hook and ladder trucks. The police department has 1 station and 30 men on full time only. There are 21 churches, 8 hotels with about 500 rooms. The Chamber of Commerce has surveyed the entire city rooming accommodations for conventions and has available this information for all who require it; the dining service for conventions of any size is adequate. Ithaca is a convention city. There are one public, one private and one state hospital with a total of 437 beds. Postal receipts for 1944 were \$430,000, with over eight million pieces of outgoing mail not counting parcel post.

THE BEST ADVERTISING MEDIUM IS THE

# CITY DIRECTORY

Because It Is Used The Most To Find Just Such  
Information You Most Wish To Have  
The Public Know

**FIRST**—what line of goods you handle. **SECOND** where you are located. Pick up a City Directory anywhere and almost invariably you can tell who the progressive, up-to-date merchants and professional men are. There are many brands of clothing, shoes, dry goods, groceries, etc., and some prefer one kind, some another. What better place to state your special brands than in the City Directory?

Write your views to them on all important local, national, and international legislation to come up for vote before them. Express yourself frankly and with force. They need your letters. They are away from home and many times under wrong influence. Do not hesitate to write them many times a year strengthening their hand and giving them the advantage of your good judgment and common sense. Guide them with good old-fashioned, home-town logic and help save America from pitfalls which daily threaten our constitutional rights.

# THE DIRECTORY

is a mirror reflecting every phase of municipal life and progress

Every business should be correctly and completely listed.

## ARE YOU?

# Manufacturing

From the period of the early 1800's until the rise of the Cornell University era of the 1870's the industrial activity of Ithaca equaled any community in New York State west of the Hudson River, with its intensity and its gambling spirit towards new ventures. The records show that around 1820 to 1830 the following products were made here: paper, woolens, cotton, flour, plaster, grist, machines and repairing, tanning of leather and hides, liquor distilling, potash, etc., so that in the "30's" there were nearly 100 industries operating in Ithaca.

The period from 1840 to 1870 was a day of great activity in industrial Ithaca that hasn't ever been equaled before or since. Some of the products made here at that time were: paper, iron foundry products, agricultural implements, glass, woolens, steamboats, sailboats and rowboats, hosiery, pianos, organs, passenger cars, railroad car repair shops, machine work, horse rakes, wagons, threshing machines, well drills, fruit packing, paints, pottery, rakes, cultivators, lime kilns, etc. The transfer of coal and grain shipments from rail to water transportation at Ithaca formed the basis of much industry; coal transfer from Cayuga and Susquehanna Railroad (now Lackawanna), and then other railroads that now form the Lehigh, made Ithaca an important freight center. There were four grain elevators here.

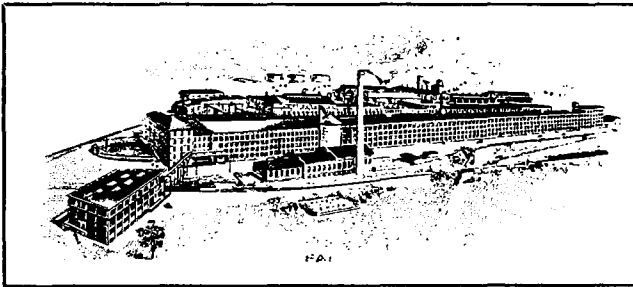

A MODERN INDUSTRIAL PLANT

After the 1870 period the industrial situation gradually changed with the time but continued active. Some of the products made were: guns, calendar clocks, salt, typewriters, wall-paper, incubators, aircraft, couplings, chains, clutches, electric clocks, adding machines, aerometers, laboratory apparatus, paper, power drive chains, mechanical stokers, leather handbags, cardboard boxes, cement, etc.

The high class of citizenship in Ithaca makes it desirable for industry and the future holds much in store for this city along development of manufacturing. Water transportation to the Atlantic seaboard is available, also into the Great Lakes. Land with both water and rail facilities is available.

# **When You Place Your Ad in the City Directory**

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.
