INTRODUCTION AND GENERAL INDEX

H. A. MANNING CO., publishers of Directories for over 300 Communities, presents to subscribers and the general public, the latest edition of the City Directory.

The City Directory is a mirror truly reflecting the community to the world. It instills in the user confidence in the continued growth of industry and wealth of the community and pride in its civic and social advancement.

MANNING'S staff of experienced personnel and the courteous and hearty cooperation of business and professional persons and residents has firmly established our reputation as publishers of the very best in directory service. This source reference of authentic information about your community and its residents will become an indispensable part of your library.

FIVE MAJOR DEPARTMENTS

The five major departments are arranged in the following order:-

I. THE DESCRIPTIVE SECTION is the first major department printed on white paper: information about statistical review, historical sketch, manufacturing, trade and civic surveys, deluxe advertising displays, and indexes.

II. THE YELLOW PAGES constitute the second major department of the Directory. This embraces the only complete line of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings - a catalog of all the activities of the city. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the third major department printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident, and the name, official personnel, nature and address of each firm, corporation and organization in the city.

IV. THE DIRECTORY OF HOUSHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the streets are arranged in alphabetical order: the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposit the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes, the indication of telephone subscribers at homes and places of business, and the phone number if available.

V. THE NUMERICAL TELEPHONE LOCATER, on green paper, is the fifth major department. All listed phones for the area are arranged by exchanges and under each exchange, when available, in numerical order with the name of the phone holder indicated.

COMMUNITY PUBLICITY The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium and community service.

PUBLISHERS' NOTE - The information in this Directory is gathered by an actual canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be, or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

TOMPKINS COUNTY

Compiled by H. A. Manning Co. for the Ithaca City Directory with the assistance of the City of Ithaca.

LOCATION The City of Ithaca, located in the heart of the Finger Lakes Region of Central New York State at the head of beautiful Cayuga Lake, is famous for its educational institutions, its position as an agricultural center of the northeast United States, its rugged and picturesque scenic beauty, and its many progressive industries.

Known far and wide as the home of Cornell University and Ithaca College, Ithaca is noted for its culture and refined atmosphere in all areas of business and social life.

Its latitude is 42 degrees 26 minutes north and its longitude is 76 degrees 29 minutes west. Situated in the center of the Southern Tier of New York State, it is 240 miles northwest of New York City, Boston is 350 miles east, Albany 175 miles east, Buffalo 150 miles northwest, Rochester 88 miles northwest, Elmira 35 miles southwest, Binghamton 50 miles southeast and Syracuse 55 miles northeast.

TOPOGRAPHY - Ithaca is in a land of lakes and hills, deep ravines and towering cliffs, waterfalls and cataracts. The city itself is bordered on three sides by hills cut through by the deep gorges of Six Mile, Cascadilla and Fall Creeks which abound with cascades and waterfalls, and on the north by Cayuga Lake, all providing a most picturesque setting. Climate ranges in temperature from an average minimum of 26 degrees to an average maximum of 69 degrees. This comparatively close range of minimum and maximum temperatures results from Ithaca's enviable position at the head of 40-mile long Cayuga Lake. The elevation of the lake, in the city, is 383 feet above sea level and the Cornell campus, the highest part of the city, is approximately 800 feet above sea level.

HISTORICAL Ithaca was settled in 1789, ten years after the visit of a detachment of 200 men commanded by Col. Dearborn from the expeditionary force of General Sullivan first visited the area on September 23, 1779. It was named Ithaca by Simeon DeWitt, Surveyor General under Washington in 1795, after the ancient Greek island of Ithaca. Incorporated as a village in 1821, it was chartered as a city in 1888 and has been the county seat of Tompkins County since the county's formation in 1817. In days long past, Ithaca was a center of inland water transportation as well as the salt center of New York State.

POPULATION - Ithaca's metropolitan area has a population, according to the 1980 census, of 51,148. This includes the City of Ithaca, Village of Cayuga Heights, Ithaca Township, Village of Lansing and the students of Cornell University and Ithaca College. As in many communities, extensive growth has been seen in the population outside the central city. Between 1900 and 1981 the city population increased from 13,150 to 28,886 or 120%. The student population in 1900 was slightly less than 3,000 today there are over 23,000.

Tompkins County, according to the 1980 federal census, had 87,046 inhabitants, including students.

MERCANTILE Ithaca is a trading center of some 100,000 persons and has stores comparable with those of cities much larger. Because of the University population, in a community which wants the best, retail stores carry merchandise equal in variety and quality to stores in leading cities. In Tompkins County there are over 700 retail stores, employing over 4,000 persons with annual sales in excess of \$242,000,000. There are also over 70 wholesale houses with annual sales of over \$46,500,000. About 630

service trade establishments are also located in Tompkins County. There are about 300 professional offices located within the city alone, and the city's nationally-known Ithaca Commons pedestrian shopping mall is supplemented by seven shopping centers in the urban area.

INDUSTRIAL Although Ithaca is not primarily an industrial city, it has 51 manufacturing establishments with an employment figure in excess of 5,700 and a payroll totaling over \$44,000,000. Cornell University employs 6,100 full time workers, Ithaca College over 1000, and the New York State Electric & Gas Corporation 650.

Among the principal products manufactured here are: computer terminals, shotguns, high-quality scientific research instruments, heat-resistant materials, and guidance system components for the space industry, power drive chains, for automotive and other applications, technical quality coatings for scientific optical instruments, precision machine tools, data processing and livestock monitoring instruments, salt, photo engraving, books, magazines, woodworking, and dairy products.

The Cornell University Industry Research Park, located near the airport, serves several large concerns which enjoy a virtual partnership with the university in promoting many kinds of research.

There are sites available for industrial development and several organizations are active in the promotion of industrial expansion within the Ithaca trading area. Inquiries addressed to the City of Ithaca Department of Planning and Development, 108 E. Green St., Ithaca, will bring a prompt reply.

EDUCATIONAL Ithaca is among the leading educational centers of the state. The Ithaca City School District includes 10 public schools with an enrollment of over 7,400 and a staff of 450 teachers and administrators. The District covers 160 square miles.

There are 3 junior high schools, including a "New Program" Jr. H.S. and one of the most modern high schools in the state.
