The Summit Sells

Because it is a Furnace of
Wide Adaptability

It is not a "specialized" furnace, but one you can use for practically any service, feeling confident that it is capable of adapting itself to conditions.

The Summit burns coal, coke or wood, giving perfect satisfaction with any of these types of fuel, and is adapted to low cellars.

Note the action of the fire in the cut above,—also the convenient double feed door; the sectional fire-pot designed to take care of all expansion and contraction; the dust flue; the upper water pan; direct and automatic gas dampers and the large grate surface.

The Summit has many splendid features you should know about. Write for full particulars. It will pay you.

AMERICAN AGRICULTURIST

Charles William Burkett, *Editor*

The one weekly agricultural NEWSpaper. First of all it is devoted to the NEWS of agriculture. It reports what is going on. It reveals underlying conditions that forecast the influence that will affect agriculture. It reports the changing conditions that confront the farmer and the various branches of his business, as well as his family and social interests.

Its original, exclusive and comprehensive crop reports are a feature of AMERICAN AGRICULTURIST. These reports are the accepted authorities among the producing, transportation, distributing, mercantile and consuming interests. The Orange Judd crop reports are considered more reliable than the government reports, while much more prompt and newsy.

We tell the news about crop conditions, market influences, etc., from one week to a month or more earlier than does the government. AMERICAN AGRICULTURIST is quoted more widely by the daily press and other newspapers than probably all other farm weeklies put together.

In addition to crop and market news, AMERICAN AGRICULTURIST reports weekly what is going on among the farmers, describes the doings of their organizations, and gives the news about whatever is happening in each and every branch of agriculture in the respective sections.

As an agricultural NEWSpaper, AMERICAN AGRICULTURIST therefore is unique.

None other of the farm press even attempts anything approaching our adequate crop reporting service. During the summer and autumn months, the Orange Judd reports have been the first, the most complete and the authoritative statement of all that was known of the situation from week to week pertaining to the staple crops: Wheat, corn, oats, cotton, hay, tobacco, potatoes, apples. Also all special crops, such as small fruits, vegetables, cranberries, onions, milk, butter, cheese, eggs, rye, barley, buckwheat, rice, etc. Our comprehensive inquiries reveal the relation of agriculture and other fundamental conditions to general business and all industry. Notable examples of this service appear in each issue.

Special Service to Advertisers and Subscribers

Orange Judd service bureau also performs a service to our subscribers and advertisers which may be likened to what Dun and Bradstreets do for their clients, among merchants, manufacturers and bankers.

We give our subscribers and readers SERVICE. We co-operate with them to enable our advertisers to better serve our subscribers and readers, and thus make the advertising columns of AMERICAN AGRICULTURIST of larger usefulness from month to month and year to year to each and every subscriber, reader and advertiser.

The publisher executes a bond of confidence with each subscriber in which we guarantee the reliability of each advertiser and advertisement admitted to AMERICAN AGRICULTURIST.

We seek to build up agriculture, to promote rural life, to foster legitimate business, and to insure general prosperity. We strive to build up instead of tear down.

The Standard Authority

upon the technique of agriculture and home interests, AMERICAN AGRICULTURIST is preserved for reference and study as the standard authority upon the best methods of doing the various operations on the farm and in the home.

It constitutes a technical magazine of agriculture, a weekly authoritative encyclopedia of all branches of farming and of home interests.

Most Carefully Read

Our subscribers and their folks eagerly wait the coming of AMERICAN AGRICULTURIST, to get its news in all phases of agriculture, its crop reports, its market forecasts, its price quotations.

They study it for reliable and authoritative information upon the technique of work on the farm or in the home.

They preserve it as the standard authority for constant reference.

Get Into the Railroad Business

But get into it *right*. Become one of the highly trained, skilled men who handle the intricate traffic problems of the big railroads—who fill responsible positions as station-masters, telegraph-operators, and ultimately highly-paid train-dispatchers and operating officials.

Our Course of Training

has been developed by experts who have been through every phase of railroading. Our instruction embraces all branches of freight, passenger and baggage work, telegraphy, automatic control, signaling, etc.

Positions Open Everywhere

We have more positions offered for skilled men than we can fill, and no graduate of this school ever experiences any trouble in landing and filling satisfactorily a lucrative place leading to advancement.

“I do all my Banking Business with
The State Bank of Trumansburg, N. Y.,
 and send in nearly all my deposits by mail. I just fix the deposit
 the same as though I were going to hand it in at the window and
 drop it in the mail, and by return mail I get a duplicate deposit
 slip from the bank, acknowledging its receipt. They make a spe-
 cialty of handling this kind of business and it saves a great deal in
 time and expense. It is the modern way and a great improve-
 ment over the old way of hitching up and driving to town every
 time you receive a check.”

Your Friends Prefer Jewelry to any Other Gift in the World

For thousands of years, as far back as historical records go, the universal token of love and friendship has been precious stones and jewels. And with each generation, the sentiment attached to the giving and owning of jewels grows.

Every achievement in life is associated with gifts of beautiful jewels—a ring for the baby; bracelets and neck chains for birthday remembrances; at graduation, perhaps a fine watch; a diamond ring announces the marriage engagement; and at the wedding the crowning event of all, a multitude of precious gems, cut glass and silverware.

When you wish to select jewelry for your friends or relatives, come to this store. You cannot find more dependable jewelry any place, nor are the prices we ask in any case unreasonable. In many instances a comparison will demonstrate that to trade here means a considerable cash saving.

We have a well equipped repair department for doing watch, clock, jewelry and optical repairing, all work guaranteed. Special attention given to fitting glasses.

No going back for some tool forgotten. It will do anything in fencing work. Saves time, wire, staples, mutilating the posts. Pays for itself over and over. Price \$1.10 prepaid. Send for circular and we will give you the name of dealer in your locality who has it on sale. Write us today and have it when you get ready to do that fence work. “Why do I bank at—

The State Bank of Trumansburg, N. Y.

—did you say?”

“Because it has a capital, surplus and profits of \$33,000.00 and a further stockholder's liability of \$25,000.00, making a total depositor's protection of \$58,000.00. Also because I always receive fair and courteous treatment, and they allow me 3 1-2% interest and compound it twice each year.”

The Biggest and Best Newspaper in Ithaca is

The Journal

10 to 16 Pages Daily

An Aggressive and Progressive Newspaper

with a modern equipment—Duplex Tubular Plate press capable of printing a 16-page paper at the rate of 25,000 per hour—A very complete stereotype foundry—A battery of four linotypes and two monotypes. Electric power and individual motors throughout the plant.

The Journal is a member of The Associated Press, the greatest news-gathering agency in the world, and receives the full service over its own leased wires.

The Journal covers the field and goes into a majority of the homes in its territory, and carries more local and foreign advertising than any other newspaper in Tompkins County.

Delivered by carrier to city subscribers at 50 cents the month.

To subscribers in the county by mail \$3.00 the year, strictly in advance.
